**Subject:** Electoral Redistribution Loss of the Federal Seat of Mayo

To the Redistribution Committee for South Australia,

I write to make suggestions to the South Australian Federal Redistribution currently being undertaken by the Australian Electoral Commission.

I am a constituent of the Federal Division of Mayo. I have lived in the Adelaide Hills for the past 40 years and have also have two sons and their families living close to Mt Barker. We have always been well served by the politicians who have been elected by the community in the past. It would be a travesty and miscarriage of justice for the residents of the seat of Mayo should the commission see fit to abolish the seat. The Adelaide Hills region and in particular the Towns of Mt Barker, Littlehampton and Nairne are growing rapidly and their expansion will result in the coming years of an integration of all three towns. The Seat of Mayo deserves the very best representation in Federal Parliament and we currently have just that. to abolish the seat would negate all that has been achieved for this rapidly expanding region of South Australia.

I do not believe that the Division of Mayo should be abolished in this redistribution process. I note that the committee responsible for managing the redistribution must consider;

1. Communities of Interest within the proposed electorate, including economic, social and regional interests.
2. Means of communication and travel within the proposed federal electorate
3. The physical features of an area of the proposed federal electorate.

With these criteria in mind, I do not believe that the Division of Mayo should be abolished.

#### Communities of Interest

As a constituent of Mayo, I know that the collaboration between Federal and Local Government is incredibly important. Mayo includes the entirety of the Adelaide Hills Council, Mount Barker District Council, Alexandrina Council, Victor Harbor Council, The District Council of Yankalilla and the Kangaroo Island Council. To abolish Mayo and split these councils between two or three electorates would mean that my local community is not represented consistently.

The community of Mayo has shared interests and passions. Mayo has the highest percentage of volunteers in Australia, which speaks to our shared community spirit. Many of us like to attend local country shows or gather to watch the local sporting teams play on the weekend.

In an economic sense, Mayo contains the vast majority of South Australia's horticulture industry and seven distinct wine regions. I believe it is better that these important businesses in our community are represented by someone who understands the issues they are facing, rather than being represented by someone based in the metropolitan area.

At the recent election, the results from the ballot boxes show a consistent vote for our current independent Federal Member. I believe this shows a want across the region for an independent voice in Federal Parliament, and it would be disappointing if this voice was silenced due to the electorate being abolished.

Physical features of Mayo

There are distinct physical features that define Mayo from the metropolitan electorates and the rural electorate of Barker, including the Hills Face Zone, the Onkaparinga River and the Lower Lakes.

The Hills Face Zone is a large planning zone in South Australia that restricts development in the Adelaide Foothills and Mount Lofty Ranges. As a result of this zone, there is an effective barrier between metropolitan Adelaide and the communities of the Adelaide Hills. It does not make sense for these two distinct areas to be represented by a metropolitan based electorate.

The Lower Lakes separate riverside communities including Goolwa, Milang and Currency Creek from the Division of Barker. This creates a true physical barrier between Mayo and Barker.

Population Growth in Key Areas

I know that the AEC must attempt to make sure all of the remaining ten electorates have a similar population. Mayo currently has 3 fast growing communities in Mount Barker, Victor harbor and Strathalbyn. Mount Barker in particular currently has a population 34,000, but this is projected to increase to 55,000 by 2036. It would not be fair for an area of this size to be included within a metropolitan seat boundary, as the needs and experiences of the voters would be considerably different.

I hope you will consider my submission, and that you will see fit to keep the Division of Mayo as one of the ten electoral divisions in South Australia.

Yours sincerely, Cedric Horn [REDACTED]
