Political disclaimer

The views, opinions, arguments and recommendations presented in this Suggestion to the redistribution of electoral divisions of Victoria are the author's own and in no way reflect the views of Services Australia, the Australian Public Service or Australian Government.

My right to hold and express views as an Australian Citizen is [protected under Australian law](#).

Exercising this right to participate in public and political debate by lodging this public submission in no way affects my capacity to fulfill my duties in a professional, impartial, and apolitical manner.

This submission complies with conditions of employment in the Australian Public Service (APS) in accordance with the *Public Service Act 1999*, the [APS Values, Code of Conduct and Employment Principles](#), and [Social media: Guidance for Australian Public Service Employees and Agencies](#)

I hold no interest in, and do not stand to receive any benefit or advantage resulting from the outcome of this redistribution. I have written this submission as a private citizen taking a personal interest in psephology and the electoral redistribution process. I am not now, nor at any time in the past been a member of any political party or similar associated organisation.

This submission is lodged claiming political neutrality. No political bias or partiality is implied within this submission and none should be inferred. This submission is lodged in accordance with [guidelines for making public submissions to a redistribution](#). The political implications – if any – of the recommendations have not formed part of the recommendation and should not be inferred.

Division names – including any suggested new names– comply with [guidelines for naming federal electoral divisions](#), except where explicitly stated otherwise. Suggested names are based on the individual's merit and contribution to Australian society, and do not imply any political bias towards the eponymous persons. Proposals to abolish or rename a division – if any – do not reflect the performance or character of the current member of Parliament representing that division or the eponymous person, unless specified.

Criticism of submissions or decisions taken as part of this redistribution, or a previous redistribution, is based solely on the merit of the arguments and recommendations presented therein and serves solely to improve electoral representation for the people of Victoria. It is not in any way a reflection upon the character or abilities of any individual, government or community group or organisation participating in this process, nor any member of a Redistribution Committee, augmented Electoral Commission, any other member of the APS, the Australian Electoral Commission, any other Australian Government entity, agency, department or any current or past member of Parliament.

Synopsis

This is a written suggestion under subsection 64(1)(a) of the *Commonwealth Electoral Act 1918* for the redistribution of Victoria and covers both the names and boundaries of all divisions within Victoria.

Every redistribution is an opportunity to evaluate community of interests and provide some scope for improvement. Likewise, the names of existing divisions should be examined at every redistribution to ensure that they continue to recognise the contributions of worthy Australians, and that those honoured exhibited values and deeds that reflect modern Australian society.

This suggestion can be viewed as an online map at:

https://api.mapbox.com/styles/v1/dmcsw/clp1xhau700e101pwh1j0ou9.html?title=view&access_token=pk.eyJ1ljoizG1jc3ciLCJhIjojY2poa21kaGs4Mm95YjM2bzFzMmNkYmJnaCJ9.xhKyqTaibNsU01LzeWpjkw&zoomwheel=true&fresh=true#11.77/-37.7553/145.0348

In determining the division boundaries and names, I consider the [Guidelines for making public submissions to a redistribution](#) and the [Guidelines for naming federal electoral divisions](#). I apply my own principles in relation to retaining federation names and aim to increase diversity of representation if names of divisions are to be created, renamed or retired.

I propose that the electoral division of **McEWEN** be abolished, There are no changes to **CORANGAMITE, CORIO, WANNON, MALLEE, INDI, GIPPSLAND, MONASH** or **FLINDERS**.

BALLARAT and **BENDIGO** gain electors in Ballan and Woodend respectively, with **HAWKE** moving into Macedon Ranges Shire. In the west, there are only a few changes, with **GORTON** picking up the more urban parts of **HAWKE**, flowing through to **GORTON** and **FRASER** and **GELLIBRAND** gaining more of Yarraville. Then a transfer between **GELLIBRAND** and **LALOR** to straighten the boundary.

In the north, Kilmore and Wallan are added to **CALWELL**, which then transfers everything south of Somerton Road to **MARIBYRNONG** and **WILLS**. **SCULLIN** picks up the rest of Wollert, Mernda and Doreen south of Bridge Inn Rd. **MELBOURNE** gets Kensington and Flemington back, while Clifton Hill and Fitzroy North go into **COOPER**. **JAGAJAGA** gains Fairfield and Alphington, losing everything east of Eltham.

In the south, **MACNAMARA** and **HIGGINS** straighten their boundary, Bentleigh East is split between **HIGGINS** and **ISSACS**, with Caulfield South and Elsternwick going into **GOLDSTEIN**. **KOOYONG** gains a small part of Burwood, while straightening the boundary along Toorak Rd and Burwood Hwy. **MENZIES** moves south to Canterbury Rd, but only as far as Springvale Rd. **DEAKIN** moves into Maroondah, with its former Whitehorse parts going to **CHISHOLM**. The

Monash and Ferntree Gully Rd serve as **CHISHOLM'S** border with **HOTHAM**, which extends down to pick up Keysborough from **ISSACS**. **BRUCE** gains the rest of Berwick (north of the Princes Hwy) while the boundary of **LA TROBE** with **HOLT** is straight along Clyde Road. Aston gains the Dandenong Ranges parts of **CASEY**, while giving Wantirna and Bayswater to **DEAKIN** along with Mooroolbark and Kilsyth from **CASEY**. Nillumbik Shire is also added to **CASEY**.

To preserve the name of a prime minister, the division of **CASEY** is renamed **MCEWEN**. I propose that no other existing electoral divisions be renamed and no new electoral divisions be created, but remain open to proposals that include renaming colonial-era divisions such as **GELLIBRAND**, **HOTHAM**, **LA TROBE** or **WILLS**.

Introduction

About this suggestion

This redistribution commenced in accordance with subsection 59(2)(a) of the *Commonwealth Electoral Act 1918* (the Electoral Act) as the number of members of the House of Representatives to which Victoria is entitled changed, following the entitlement determination made under subsection 48(1) on 27 July 2023.

The entitlement determination requires that Victoria decrease its electoral representation by one seat, to 38 seats. This means that Victoria has changed its electoral representation in each of the last three determinations, increasing from 37 to 38 seats in 2017, to 39 in 2020 and now retuning to 38 divisions.

The abolition of an electoral division inevitably necessitates a more radical redistribution than one occurring as a result of the passage of time. However, in this case there remains a fair amount of stability within electoral divisions. This is due to the state undergoing a redistribution only three years ago. As a result, a large number of divisions are within tolerance. However, as a division is required to be abolished, a more complete redistribution is required so alterations will occur to many divisions that are still within tolerance.

Every redistribution is an opportunity to evaluate the existing boundaries to determine the extent that they meet the community of interests grounds of subsection 66(3)(b) of the Electoral Act. In most cases, existing divisions ultimately contain deficiencies in community of interests grounds resulting from the numerical restraints imposed in subsection 66(3)(a) of the Electoral Act, as such there will almost always be some scope for improvement.

Enrolment data

In order to comply with the numerical requirements of the Electoral Act, the number of electors enrolled in each division must not vary by more than 10 per cent from the redistribution quota. In accordance with section 65 of the Electoral Act, the Electoral Commissioner has determined the redistribution quota for Victoria on 9 August 2023 to be 116,894. This means that no division can contain more than 128,583, or less than 105,205 electors.

The projected number of electors must, as far as practicable, be within 3.5 percent of the quota of 127,238 on the projection date of 17 April 2028, meaning divisions must contain between 122,785 and 131,691 electors. The numerical tolerances under subsections 66(3)(a) and 66(3)(b) of the Electoral Act are the only mandatory criteria, so these figures supersede any other community of interests factors and the numerical tolerance must be maintained.

Methodology

Determining boundaries

In drafting this suggestion, I have endeavoured to comply with the requirements of subsection 66(3)(b) of the Electoral Act, taking into account:

- i. community of interests, including economic, social and regional interests;
- ii. means of communication and travel;
- iv. the physical features and area; and
- v. the boundaries of existing divisions within the State.

I attempt to use clear boundaries wherever possible to ensure that electors can easily identify the division in which they live. I will split SA1 areas where a geographic feature makes for a more logical division boundary. In cases where split SA1 elector data is not available, I make a judgement call as to which division I include the electors. More accurate information should be available for the Committee to ensure all divisions fully comply to numerical constraints. In these cases, I aim to ensure that either division could afford the entire SA1 population within the numerical threshold.

In order to obtain the best communities of interests, I intend to make use of the full tolerance of the quota and enrolment in several divisions will be close to the threshold. I believe that the threshold under subsection 66(3)(a) exists for a reason, and should be used to the maximum extent possible where its use achieves better representation for electors. I know that there is a trend to ensure areas with particularly high growth or low growth are balanced, in the hopes that a future redistribution could minimise changes. I do not believe this is necessary. Often the projected number fail to accurately predict the actual growth patterns, and as a result, any future redistribution conducted will generally readdress these concerns at the time.

Unless explicitly specified, references to elector numbers refer to projected enrolment figures, as this is generally the stricter criterion used in determining electoral boundaries.

In the main, this is a cascading process. I will start with an “anchor” division, usually in the corner of the state, or in an area with few options to expand or shed electors. From this division, the electors are shifted in a cascading manner from one division to the next until all divisions are updated.

Boundaries of existing divisions

I intend to use the existing divisions as building blocks of my suggested divisions. However, in doing so, I note that under section 66(3A) of the Electoral Act, the existing boundaries are considered subordinate to the other criteria. Hence, the existing boundaries should always

yield to community of interests grounds where the existing boundary would otherwise divide a united community and the numerical tolerance allows.

Community of interests

Defining a community of interests can be ambiguous and is often the subject of debate within suggestions and objections. For the most part, a single community of interests is nothing more than a group of residents who share similar amenities, socialise or organise themselves into communities, share similar socio-economic demographics, live close by to one another, or otherwise identify as a community. It is highly unlikely that an electoral division will contain only one community of interests. In most cases, a division shall comprise several similar or interrelated communities.

Local government areas can be a good indicator of communities of interests, particularly in rural and regional areas. Often townships share amenities across government areas and residents share similar professions, socio-economic or cultural demographics.

This is less so in metropolitan areas. Given the more fluid movement of residents in these areas, and shorter comparative distances, communities of interests often span local government boundaries. Furthermore, local government areas can often be anachronisms from history, or recent artificial accumulations that, at times, bear little resemblance to the local communities of interests.

We have seen a recent tendency to attempt to align electoral divisions with whole local government areas. This can make sense in regional areas where individual local government areas have lower population and can be combined together. In some metropolitan local government areas with large populations, using this method can lead to short-term desirable outcomes, however these boundaries are frequently unstable and lead to a small part of the community either being excluded or included to make up the numbers.

For these reasons I am less willing to keep local government areas intact in metropolitan areas.

Suburb or locality boundaries can often be arbitrarily defined or unclear. They often make use of lines of sight, or ambiguous property boundaries. However, it is apparent that previous Committees have seen the usefulness in using them as division boundaries. As such, I will at times use suburb and locality boundaries where it is convenient and appropriate. Particularly within regional areas, a strong geographic boundary can often be difficult to come across, so a locality boundary can make more sense.

Communication and travel

Means of communication and travel must be considered when determining boundaries for electoral divisions. Where separate communities need to be combined into a single division, it is always preferable that this occur along transport corridors such as highways, main roads or railways. Creating divisions that are only contiguous on a map, but not connected with transport or communication corridors inevitably leads to some electors feeling disconnected from the rest of their community and, indeed often their local representative.

While major roads, railways or rivers can be used as boundaries to a great extent, care must be taken to ensure that a boundary is not drawn down a road or railway that actually unites communities. More common in rural areas, sometimes a railway station or major road will become a community hub with electors and residents from either side accessing the facilities.

Physical features and area

Physical features can often be used to determine boundaries. Often they impose severe barriers on communication and serve as natural boundaries. Rivers, bays, mountains and large bushland areas lend themselves to creating natural and convenient boundaries.

Inevitably at some point, the boundary will be drawn – probably down a street, railway or suburb boundary – where it, in fact, divides a community of interests. There will be residents that live either side of a given boundary that share a greater affinity with those on the other side of the line than with those that further afield within the division they have been assigned. This cannot be completely avoided, as the very nature of a redistribution means that a line must be drawn on a map somewhere. I strive to ensure that where a line is drawn, it is generally recognised as a local boundary, or logically could sensibly be interpreted to be one.

Political fairness

I determine electoral division boundaries in a wholly impartial manner. As far as I consider, this means disregarding potential political implications for divisions or for members representing these divisions. I do not attempt to make myself aware of voting patterns at particular booths or within specific localities to avoid this bias influencing my decisions.

Political support or affiliation is not included as a criterion within section 66 of the Electoral Act, and I believe this omission was deliberate. I do not believe political support should form any part of the consideration of electoral boundaries. Any idea of fairness should be interpreted to mean without regard to political implications, rather than adding a complication of balancing ever-changing political ideologies among voters.

Division Names

Divisions named for colonial-era persons

Every redistribution provides an opportunity to ensure that divisions not only reflect communities of interests in drawing boundaries, but also that the names of the divisions reflect standards that are acceptable to contemporary society and the community.

According to the [Guidelines for naming federal electoral divisions](#), in the main, divisions should be named after deceased Australians who have rendered outstanding service to their country.

Not surprisingly, an inordinately large number of divisions are named after colonial-era politicians, governors, pioneers or explorers. Several of these individuals – while making a contribution to the Australia we know today – would hardly have considered themselves to be Australian. The appropriateness of some of these individuals to continue to receive recognition is, at best, obsolete, and, at worst, questionable.

This is especially true when considering that many of the individuals are recognised in many other aspects of society, through the names of local government areas, suburbs, roads and highways, geographic features such as mountains, rivers and bays, private and public institutions including military installations, universities, hotels, banks or hospitals, public buildings or landmarks, or multiple categories in some cases, for example, the plethora of monuments and features dedicated to Maj. Gen. Lachlan Macquarie, Capt. James Cook or Lt. Gov. Charles La Trobe.

Largely, these colonial-era persons are men of European – primarily British or Irish – descent. So, it has been heartening to see a genuine attempt to address this diversity imbalance with division names in recent years being named for women, families that include women or indigenous persons. Some effort could still be made toward other people of non-European ethnicities, however I am hopeful this will come with time as these groups become more prevalent in Australian society.

Increased diversity of division names should be encouraged to continue. When renaming or abolishing divisions, we should look to remove divisions named for colonial-era men of European descent over divisions named for more contemporary or diverse individuals. This should apply particularly if the individual in question would have considered their nationality to be British, or has many other monuments in their honour. If it becomes inevitable that a division honouring a woman, indigenous person, or other person of diverse background is to be abolished, we should to renaming another nearby division to retain the same. There is precedent for this practice, with the division names **REID**, **HUNTER** and to some extent **COWAN** being retained where it could otherwise be expected that the division was to be abolished.

We have also seen a several divisions renamed when the conduct of those for whom the division is named has been called into question. In these cases, especially in the wake of ongoing practices worldwide, we should use the opportunity of a redistribution to rename divisions where it comes to be known that such individual conducted themselves in a way not deserving the honour of a division name. This is the case, to varying extent, with the former divisions of **BATMAN**, **McMILLAN**, **STIRLING**, **WAKEFIELD** and **DENISON**.

Federation divisions

Federation divisions pose another problem. For the sake of clarity, federation divisions shall be taken to include the first divisions in South Australian and Tasmanian that were used for the 1903 election.

The guidelines recommend avoiding abolition or renaming of federation divisions. This guideline will likely need to be revisited in the future. The obvious and deserved inclusion of divisions named for prime ministers along with attempts to include more diversity in division names ultimately leads to either geographic or colonial-era divisions becoming candidates to rename. Not coincidentally, the majority of these divisions are also federation divisions.

We have already seen problems with geographic names. **WERRIWA** has not included its namesake – Lake George – for decades. There were strong objections at recent redistributions where the divisions of **PARRAMATTA** and **PERTH** were proposed without including the respective cities and the divisions of **CALARE**, **CORANGAMITE**, **RICHMOND** and **RIVERINA** cover areas further away from their namesakes with every redistribution. The division of **PORT ADELAIDE** was also retired as a geographic name that also duplicated a state electoral division. The division of **CHARLTON** had to be renamed **HUNTER** to ensure continuity of a federation division.

It may well come a time where this policy to retain federation division names becomes unviable. Even the various Redistribution Committees have felt it necessary to violate the policy at least five times since 2006, abolishing or renaming federation divisions in every state¹, save Queensland.

Given the reasons above, I don't feel inclined to continue to adhere to this policy in cases where it is apparent that an existing federation division name is less suitable than another name for a division.

¹ Namely **GWYDIR**, **KALGOORLIE**, **DENISON**, **MELBOURNE PORTS** and **WAKEFIELD**.

Division names in Victoria

Nine divisions in Victoria are named for former prime ministers – **BRUCE, DEAKIN, FRASER, GORTON, HAWKE, HOLT, MENZIES, MCEWEN** and **SCULLIN**. This is the greatest number of divisions named for prime ministers in any state.

Five divisions – **ASTON, CHISHOLM, DUNKLEY, GOLDSTEIN** and **MACNAMARA** are named solely after women. **NICHOLLS** is named after a husband and wife.

Three division – **COOPER, JAGAJAGA** and **NICOLLS** are named after indigenous Australians.

Of the ten federation divisions still in existence, nine are named after geographic features – **BALLARAT, BENDIGO, CORIO, CORANGAMITE, GIPPSLAND, INDI, KOOYONG, MELBOURNE** and **WANNON** – however, arguments could be made that **FLINDERS** is also partially named for its geography. Of these, seven are words of Aboriginal origin, however only **INDI** is an Aboriginal word where a different word is used in English to describe the feature.

Two non-federation divisions are also geographic: **MALLEE** and **MARIBYRNONG**. Both of these names are of Aboriginal origin.

Both **CASEY** and **ISAACS** are named for former governors-general.

CALWELL and **HIGGINS** are named for prominent members of Parliament. **MONASH** is named for the military commander and engineer and **LALOR** for the leader of the Eureka Stockade and later colonial politician.

The remaining divisions – **GELLIBRAND, HOTHAM, LA TROBE** and **WILLS** are named after colonial era governors, pioneers and explorers.

Divisions proposed to be abolished or renamed

As a division needs to be abolished, the easiest solution is simply to select a division and remove it. On merit of the division names, as I mentioned above, one of **GELLIBRAND, HOTHAM, LA TROBE** or **WILLS** would be prime candidates to retire as a division name.

However, with the current make-up of electors, the division of **MCEWEN** is the most severely disjointed. It is a division spanning from Bend of Islands and Christmas Hills in the Yarra Valley to Kilmore and then across to Woodend, stretching as far as Trentham East in the Hepburn. As a result, **MCEWEN** can only be described as a “bits and pieces” division. It includes at least five distinct communities of interests, perhaps more. Most of these areas are not connected to each other by transport or communication and the division does not follow geographic features of the land.

As a result, my suggestion places parts of **McEWEN** into six existing divisions. This leaves very little of the original McEwen left, and as such it is the division that is abolished.

As the division is named for a former prime minister, it is preferable that the division name is retained. With the majority of the electors moving into the new **CALWELL**, it could be argued that **CALWELL** could be renamed **McEWEN**. However, the urban nature of **CALWELL** does not fit with the tradition of **McEWEN** being a regional division, named for a Country Party prime minister. So therefore, I have chosen to rename **CASEY** as **McEWEN**, preserving the more rural nature of the division. Parts of this areas were also within the division of **McEWEN** in the past, so the area is familiar with the name. This will also remove a source of confusion, with the name **CASEY** now debatably being more well known as the name of a local government area serving a nearby, but distinctly different part of the state.

I am inclined to again propose that the division name **CORANGAMITE** be retired in preference for a division named for a prominent individual. The arguments put forward in the 2021 redistribution still stand for the retirement of the name, and I still feel the arguments supporting retaining the name to be weaker. However, after two failed attempts to do so by previous Redistribution Committees, I feel this may be a futile cause. I suspect there is no reason to assume local opponents would be any less intense in their objections should the Committee attempt this a third time. Therefore, I do not currently suggest renaming the division of **CORANGAMITE**.

Should the Committee decide that one, or more, of the abovementioned divisions of Gellibrand, Hotham, La Trobe or Wills should be renamed, I present a brief list of individuals who I would consider worthy of having a division named for them and urge the Committee to include these names in their considerations.

Possible division name	Individual	Prominence
CHILD	The Honourable Gloria Joan Liles Child AO	First female speaker of the Australian House of Representatives. Victorian Women’s Honour Roll inductee.
CHIPP	The Honourable Donald Leslie Chipp, AO	Minister in Holt, Gorton, McMahon and Fraser governments. Founder of Australian Democrats.
GUILFOYLE	The Honourable Margaret Georgina Constance Guilfoyle AC DBE	Senator for Victoria. Minister in Fraser government. First female cabinet-level minister in Australia. Victorian Women’s Honour Roll inductee.
TUCKER	Margaret Elizabeth Lillardia Tucker MBE	Indigenous activist, writer and advocate Victorian Women’s Honour Roll inductee.

I propose that: The division of **McEWEN** be abolished.

I propose that: The division name **McEWEN** be transferred to the division of **CASEY** and the division name **CASEY** be retired.

I propose that: The Committee consider the appropriateness of existing division names, in particular the divisions of **GELLIBRAND, HOTHAM, LA TROBE** and **WILLS**, and to consider whether another name would be more appropriate.

I propose that: The Committee consider the appropriateness of divisions named **CHILD, CHIPP, GUILFOYLE** or **TUCKER**.

Analysis of existing divisions

Geographic arrangement of divisions

Perhaps the most prominent geographic boundary in Victoria's divisions is the single divide formed by the Yarra River and the Great Dividing Range. A generally accepted principle is that divisions do not cross this divide without a very good reason.

Other established boundaries also exist, to a lesser extent, within the metropolitan Melbourne region. Little River is a well-established boundary demarking the limits of the Melbourne metropolitan region from the Geelong area. Some major freeways, like the Monash form a barrier to community of interests, even though the means of communication past the freeway are strong. In the north of Melbourne, creeks and rivers such as the Maribyrnong River, Moonee Ponds, Merri and Darebin Creeks and the Plenty River are significant barriers, even if only culturally and socially. In the east and south-east Koonung, Gardiners and Dandenong Creeks serve as major boundaries.

The 2021 redistribution managed to provide clear boundaries in most cases. The main area with problematic boundaries was the **CHISHOLM, DEAKIN** and **MENZIES** area which tended to split communities of interests by using Whitehorse Road as the main boundary. This was then compounded by utilising Blackburn Road along the only section this road serves to unite a community, splitting the community of Blackburn into three.

The division of **ISAACS** has long included several distinct communities separated by large sections of green wedge zone. The communities in Keysborough, Noble Park and Dandenong share little in common with the bayside communities.

The division of **ASTON** has finally been aligned with the City of Knox, however the numerical allowances do not allow this situation to continue. This is one of the caveats of aligning an electoral division with a single local government area. The same situation could be said with attempts for **KOORYONG**, aligning with Boroondara, **WILLS** aligning with Merri-bek, or **DUNKLEY** aligning with Frankston.

In regional areas, the recency of the previous redistribution has led to a general stability and most of the rural divisions can remain unchanged.

Suggested divisions

I confess that I had several solutions to this redistribution, but in each occasion, I was displeased with at least one aspect of the proposal. This led me to tweak and alter divisions several times. The requirement to abolish one division leads to a situation where divisions on both sides of the Yarra River contain approximately half a division. The numerical allowances along with a desire to include logical boundaries that consist of communities of interests, results in many divisions north of the Yarra River at the top of the tolerance, while many divisions in the south are at the bottom of the tolerance.

In the end, most of the changes I have made are within the metropolitan area. In fact, there are no changes at all to the divisions of **CORIO, CORANGAMITE, WANNON, MALLEE, INDI, GIPPSLAND, MONASH** or **FLINDERS**.

Moving in from here, I started at **BALLARAT**, taking most of the areas in Moorabool up to Bacchus Marsh. **BENDIGO** gains all of Woodend, and the balance of the Macedon Ranges Shire moves into **HAWKE**. This pushes Hawke over threshold, so Cobblebank and Mount Cottrell are added to **GORTON** along with all of Plumpton, Fraser Rise and Hillside. In turn this brings **GORTON** over tolerance, so with already strong boundaries between **GORTON** and **FRASER**, Kings Park and Albanvale are moved into **FRASER**. This allows more of Yarraville to move into **GELLIBRAND**, making use of Somerville Road as a strong, continuous boundary. At this point we take an opportunity to clean up the boundary and communities of interest, making exchange between **GELLIBRAND** and **LALOR**. Williams Landing moves into **GELLIBRAND**, while Truganina moves into **LALOR**. Palmers Road, Leakes Road and Forsyth Road make for strong boundaries in this area. We then continue the boundary along the Princes Freeway, and the Werribee River.

Moving back into the north now, Kilmore and Wallan are transferred into **CALWELL** making use of the commuter community of interests in the area, with access to the Hume Freeway and Seymour railway line. The numbers here are tight, so Clonbinane and Waterford Park are added to **NICHOLLS** to make the numbers work. These small towns are slightly disconnected from the commuter areas to the south and west so can fit with the communities to the north in **NICHOLLS**.

We then add the Whittlesea council areas in **McEWEN** to **CALWELL**, making it a northern regional area division. Using Bridge Inn Road, Mernda and Doreen are split between **CALWELL** and **SCULLIN**, with Wollert pushing the boundary slightly north. This results in the abolition of **McEWEN**, with parts being split between **BENDIGO, HAWKE, CALWELL, NICHOLLS** and **SCULLIN**. The remaining parts in the Shire of Nillumbik will be added to **CASEY**.

Moving southwards, **CALWELL** now needs to shed electors, so the southern boundary moves to Somerton Road. Greenvale, Attwood, Westmeadows Meadow Heights and Gladstone Park are added to **MARIBYRNONG**, while Coolaroo, Dallas, Campbellfield and Broadmeadows are added to **WILLS**.

The cascading effect here means **MARIBYRNONG** then loses Kensington, Flemington and some of Ascot Vale to **MELBOURNE**. Likewise, **WILLS** loses parts of Brunswick and Brunswick West to **MELBOURNE**, using Dawson Street and Glenlyon Road as a boundary.

MELBOURNE then cedes, Clifton Hill, and Fitzroy North, along with the northern parts of Fitzroy, Collingwood and Abbotsford to **COOPER**. This places **COOPER** over threshold, so Kingsbury, and Bundoora, are transferred to **JAGAJAGA** using Darebin Creek as a boundary. As **COOPER** is still over, we transfer Alphington and Fairfield, and part of Northcote east of Victoria Road. The boundary with **COOPER**, **JAGAJAGA** and **SCULLIN** is then straightened along the Ring Road.

This enables all of Eltham, Kangaroo Ground, Research and Warrandyte North to transfer to **CASEY**, along with the rest of the Nillumbik Shire.

South of the Yarra River, **MACNAMARA** and **HIGGINS** straighten their boundary, with South Yarra and Prahran moving into **MACNAMARA** while Caulfield North and the part of St Kilda East in the City of Glen Eira transferring to **HIGGINS**. Additionally, Caulfield, Caulfield South and Elsternwick are given to **GOLDSTEIN**.

Similar changes have been proposed several times in the past, but these changes have met strong resistance from local groups. However, the reasons tend to come down to local political representation, with community of interests reasons given for not making this change weak at best, and this area has little community of interests with the rest of the division.

Using Glen Eira Road and Booran Road, the boundary between **HIGGINS** and **GOLDSTEIN** is reworked. All of Glen Huntly is moved into **HIGGINS**, using the suburb locality boundary and Oakleigh Road to Koornang Road. **GOLDSTEIN** continues using Tucker Road as a boundary with East Bentleigh and Hughesdale added to **HIGGINS**.

KOORYONG gives the remaining part of Glen Iris to **HIGGINS**, straightening the boundary along Toorak Road. This pushes **KOORYONG** under tolerance, so the corner of Burwood from Burwood Highway to Elgar Road is added to **KOORYONG**.

East Bentleigh is then split along Centre Road, with **HIGGINS** in the north, and **ISSACS** stretching up from the south. **ISSACS** then continues along Centre Road, taking South Oakleigh as far as Springs Road, then running along Bourke Road and Westall Road. This then allows **ISSACS** to shed Keysborough, Noble Park and Dandenong to both **HOTHAM** and **BRUCE**. To ensure boundaries that are easy to follow in the area, **ISSACS** uses Springvale, Hutton and Greens

Roads, Eastlink, Eumemmering Creek and Patterson River as a boundary. This means that Bangholme remains in **ISAACS**, however as this area has connections with Chelsea and Mordialloc, this is not unreasonable.

Using these boundaries means **DUNKLEY** can gain electors to its north. It takes electors in Lyndhurst, Bangholme and Dandenong South using Eumemmering Creek, Abbots Road, South Gippsland Highway and Western Port Highway.

HOLT loses Blind Bight, Cannons Creek, Tooradin, and Warneet, and part of Devon Meadows, using Fisheries Road and Clyde- Fiveways Road to **LA TROBE**. These areas are more rural in nature, and fit with the nearby Koo Wee Rup, Caldermeade and Lang Lang already in **LA TROBE**. This allows **LA TROBE** to transfer Berwick and Narre Warren North to **BRUCE** and then gain Avonsleigh and Macclesfield from **CASEY**. These localities are much more aligned with Emerald and Cockatoo, so they make a good match in this area, despite being within Yarra Ranges Shire.

To balance the numbers **HOLT** then gains, from **BRUCE**, Narre Warren South and part of Berwick using Hallam Main Drain/Hallam Creek then Cranbourne Road, Centre Road and Clyde Road. The boundary between **BRUCE** and **LA TROBE** then continues along Clyde Road, the Princess Freeway and O'Shea Road to Cardinia Creek.

BRUCE then takes Dandenong South from **ISAACS**, and using Abbots Road, Eumemmering Creek, Eastlink, Greens Road and Chandler Road meets the existing boundary with **HOTHAM**.

HOTHAM includes all the areas between Warrigal Road and Dandenong Creek, using the Monash Freeway and Ferntree Gully Road as the northern boundary, gaining most of **BRUCE'S** share of Mulgrave, as far as Eastlink, and then stretching down to include all of Noble Park and Keysborough.

HOTHAM pushing northwards, cascades to **CHISHOLM**, with **MENZIES** pushing south through Box Hill stretching as far as Canterbury Road. This is a more logical boundary as it does not split communities as the current boundary along Whitehorse and Blackburn Roads does. We continue **MENZIES** along Canterbury Road until Springvale Road, where it rejoins at the Eastern Freeway and then follows the City of Manningham boundary and its existing boundaries to Wonga Park. It then sheds all the territory north of the Yarra River to **CASEY** to return to the Yarra River as the northern boundary. **CHISHOLM** then moves eastward, picking up Forest Hill and Nunawading east of Springvale Road, as well as Mitcham and Vermont.

ASTON neatly aligns with the City of Knox boundary, but needs to gain electors. We could make a small adjustment including a few thousand electors from outside Knox, but this will likely leave these electors disconnected from the rest of the division. This is especially true when we

consider **ASTON**, as it is surrounded on three sides by natural features and is geographically distinct from the adjacent communities in these areas.

Instead we transfer a large part of **ASTON** north to **DEAKIN**. Following Burwood Highway and Scoresby and Bayswater Roads, all of Wantirna, and parts of Wantirna South, Boronia, Bayswater are transferred. This enables **ASTON** to then expand eastward into the Dandenong Ranges. Mount Dandenong, Upwey, Belgrave, Monbulk and Silvan are distinct as a community from the rest of Yarra Ranges and **CASEY**, so they can be combined with **ASTON**. They share similar approaches to the communities in Ferntree Gully and The Basin at the foothills of the Dandenongs and use Burwood Highway, Mountain Highway and Wellington Road as major roads through the area. These places also tend to access amenities in the City of Knox if they are absent within their local area.

DEAKIN now, having lost all of the City of Whitehorse, moves into **CASEY** to gain electors. From the existing boundary we follow Maroondah Highway, Mooroolbark Road, Hull Road, Cambridge Road, Durham Road and Liverpool Road picking up most of Mooroolbark and parts of Kilsyth.

This leaves **CASEY** now consisting of the northern parts of the Shire of Yarra Ranges as well as most of the Shire of Nillumbik. As most of this area has been within the division of **MCEWEN** at some point, and to preserve the name of a division named for a former prime minister, the name **CASEY** is retired and the division is renamed **MCEWEN**.

I propose that: The Redistribution Committee adopt boundaries described above for electoral divisions in Victoria.

Overview maps

An online map of all divisions is available to be viewed at:

https://api.mapbox.com/styles/v1/dmcsw/clp1xhau700e101pwf1j0ou9.html?title=view&access_token=pk.eyJ1ljoizG1jc3cilCjhljoiY2poa21kaGs4Mm95YjM2bzFzMmNkYmJnaCJ9.xhKyqTaibNsU01LzeWpjkw&zoomwheel=true&fresh=true#11.77/-37.7553/145.0348

Rural and regional Victoria

Metropolitan Melbourne

Enrolment data for each electoral division

Each division is listed separately with a table outlining the actual and projected enrolment, broken down by SA2 names by existing division.

A description of the changes to the division boundary follows, starting in the north, or north west depending on the individual changes to the division and proceeding in a clockwise manner. In some cases, the existing boundary is redundantly described where it is followed for a short period before deviating again.

Aston

	Actual Enrolment	Projected Enrolment	Num SA1
From ASTON	89,315	97,159	299

- Moonee Ponds Creek,
- Yuroke Creek,
- Otway Crescent Drain
- Barry Rd,
- Pascoe Vale Rd
- Somerton Rd, and
- Merri Creek

To existing division boundary with **MELBOURNE**.

List of SA1 codes in new divisions

The following table is a list of all SA1 codes proposed to change divisions in this suggestion.

SA1 codes that are to be split appear with a hatched grey background. This includes any SA1 where a proposed division boundary along a geographic feature or infrastructure (such as a road or motorway) does not align exactly with the SA1 boundary. This may therefore be a very minor split involving the transfer of no electors.

SA1 Code	Existing division	Proposed division	SA1 Code	Existing division	Proposed division
