Subject Consideration of the renaming of Denison

Dear Sir/Madam

I would like to register my interest in seeing the electorate of Denison re-named Inglis Clark. Having just attended a Local Government constitutional recognition forum in Canberra I believe one of the significant architects of this nation's constitution deserves significant recognition at this level. His support for a democratic Australia is truly worthy of a memorial of this type. Denison himself did not display a great commitment to democratic principles as far as I'm aware and doesn't deserve the level of recognition afforded him in this regard.

When finally determining the issue, please see the sense and reason behind the submissions that support this move.

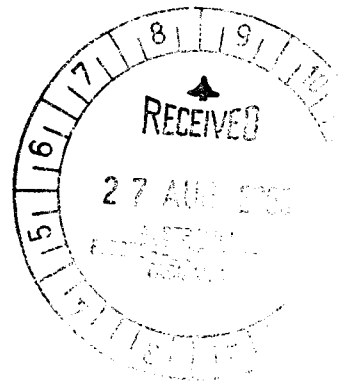

Kind Regards,

Rob Valentine
