Subject: Why "Wright?"

Greetings,

Why a PERSONAL name for a GEOGRAPHICAL area?

Why not South-east Queensland or Gold Coast Hinterland or whatever describes its location in a manner comprehensible to people in Hobart or Darwin?

Why do we have Fraser and Canberra in the ACT instead of Canberra North and Canberra South?

Would you give a person a geographical name not a personal one - Mr latitude this longitude that rather than Mr John Smith? Would you call a colour flavourful or music red?

Is it sheer perversity that leads you to this, or silliness, or political pressure? If you are so illogical in the elementary matter of naming electorates comprehensibly, how is your logic in other aspects of your important work?

I repeat - please give me a logical reason for giving a PERSONAL name to a GEOGRAPHICAL area.

Thank you,

Hugh Dakin.
