**To:** VIC Redistribution  
**Subject:** Support for revised boundaries for Melbourne Ports

I write to support the revised redistribution for Melbourne Ports - I also wrote re the original submission. These revisions meet the ,majority of the requests I made in the last submission - namely that it maintains a community of interest, maintains boundaries that are well defined i.e. major roads the river and a race track. Please take this as support for the current proposal  
kind regards  
Julie
