**To:** VIC Redistribution  
**Subject:** Murrindindi being shifted to INDI

**Importance:** High

**Follow Up Flag:** Follow up  
**Flag Status:** Flagged

To whom ever it concerns ( apart from all of us in Murrindindi)

Aside from the total lack of information within the Murrindindi Shire area regarding this proposal, the timing is abysmal!

All of those who were directly or indirectly affected by the 2009 fire event feel our roots, our support, our understanding and our sense of cohesion has been gained from the close connection with the Goulburn and its surrounding shires and towns.

To break these links, even only symbolically, at this critical time during our recovery would be detrimental to the well-being of a large number of people just starting to come to grips with the rest of their life..

I beg you to consider the social cost in such a move at this particular time and to delay consideration of this change for at least another 24 months.

A very concerned and still fragile recoveree
