

Further Objection Number 197

Margaret and Wayne English

1 page

As residents of Craigieburn for 33 years, we wish to object to the proposed Federal Redistribution which will see the town divided into two by the main road; Craigieburn Road.

Craigieburn is one community; we share the same *community of interest*. We are economically, and socially identical to other Craigieburn residents whether they live on the North or South side of the main road. We share the same regional interests; that is the best interests for Craigieburn.

As a growing urbanised Community, we need one clear and consistent voice in Canberra making sure our infrastructure needs are met as we continue to grow.
