## Introduction

To the Redistribution Committee for Tasmania,

This submission contains my analysis of the current Divisional Boundaries and my proposal on where to redraw the electoral boundaries for the 5 Commonwealth Electoral Divisions allocated to the State of Tasmania.

Though I am not a resident of Tasmania, my forebears resided in the State for a time. The Waddell family tree lists births, deaths and marriages in places such as Evandale Junction, Latrobe and East Devonport from the early 20th century.

This is the first electoral Redistribution conducted in Tasmania using Statistical Areas (SA's) as opposed to Census Collection District's (CD's).

It is also my 5th submission / proposal to the AEC in relation to Commonwealth Redistributions in the past 2 years; having already provided contributions to the AEC's Redistributions of WA, NSW, the ACT and the Northern Territory since 2014.

I have also made contributions to State Redistributions in Victoria (2013) South Australia and Queensland (both 2016).

This submission / proposal is written as a narrative, which hopefully conveys to the reader the logic I have used to make my determinations and proposals.

This document should be viewed in conjunction with the accompanying Excel SA1 Breakdown spreadsheet which provides all the statistical information relevant to this submission.

## **A list of abbreviations and acronyms used in this submission**

ABS – Australian Bureau of Statistics

AEC - Australian Electoral Commission

ASGS - Australian Statistical Geography Standard

CED – Commonwealth Electoral Division

LGA - Local Government Area (City Council, Shire, etc.)

SA (SA1, SA2, SA3, SA4) - Statistical Areas used by the ABS. SA1 being the smallest and SA4 being the largest state-based Statistical Area.

The Act - Commonwealth Electoral Act (1918)

N, S, E, W, NE, SE, NW, SW – Compass Points: North, South, East, West, North-East, etc.

## **Data Sources & References**

To assist in the preparation of this document, I referenced information from the following web sites:

The ABS: <http://www.abs.gov.au> 2011 Census information, breakdown of population by Mesh Block, SA1 and area measurement

The AEC: <http://www.aec.gov.au/>

ASGS Boundaries Online:

"List Map" - LGA and locality boundaries: <http://maps.thelist.tas.gov.au/listmap/app/list/map>

## Current Divisional Names

There is no reason for any of the existing 5 Divisional Names to be changed.

### Initial analysis of the existing Divisions

Contributing to my first Electoral Redistribution in 2013; I've now reviewed almost 50% of all CED's. When I took my first look at how the current 5 Tasmanian Divisions were composed, I was immediately struck by the aspects of 2 Divisions which I considered unusual:

- The current layout of the Division of Franklin – divided by water between its east and west
- The northern wedge of the Division of Lyons splitting Bass and Braddon on the north coast

I believe there is a case to argue that Franklin as it stands, does not comply with section 66(3)(b)(ii) of The Act in relation to means of communication and travel within the Electoral Division. Currently the Member for Franklin cannot travel through their entire division on land without having to travel through another Division (Denison) in order to get from one side of the Division of Franklin to the other.

At the 2013 Victorian State re-distribution one of the submissions identified exactly the same issue with one of Victoria's previous State Electoral Districts. As a result the boundaries of this District were re-drawn to comply with the Victorian Act.

Bass and Braddon are the 2 CED's with the lowest electoral enrolment for the State. Separating them; the Division of Lyons is well over average. I considered whether there was an opportunity to have Tasmania's more developed and populated parts of the western two-thirds of north coast covered by 2 Divisions rather than '2 and-a-bit'. In considering this proposal I also needed to consider how much of the existing, but less populated parts of the Divisions of Bass and Braddon I would need to transfer to Lyons in order to make the proposal work.

My reason for considering this was to better comply with Section 66(3)(b)(i) of the Act: "[community of interests within the Electoral Division, including economic, social and regional interests](#)", and though not stipulated as a Commonwealth requirement, but a logical extension of Section 66(3)(b)(i) of the Act; I also considered 'Urban versus Regional' as a factor - uniting the more densely populated areas into Bass and Braddon with the intention of having Lyons represent the less densely populated centre of Tasmania.

This would mean each of the 5 Divisions could have an arguably better defined Community of Interest than currently exists:

- Bass – Launceston and the lower Tamar
- Braddon - Urbanised north coast – western half
- Denison - Central Hobart and populated areas to the south and south-west
- Franklin - Greater Hobart's east and north
- Lyons – rural central Tasmania incorporating the east coast and easternmost third of the north coast; including the Flinders Island group.

## Compliance with the Commonwealth Electoral Act (1918)

Over the past few years, at Redistributions performed for other States, I believe that some Redistribution Committees have misinterpreted The Act, or at least, applied a principle that I would argue is contrary to The Act.

For that reason I have copied and pasted Sections 66(3) and (3A) below. I will expand on my interpretation of The Act below that.

*(3) In making the proposed redistribution, the Redistribution Committee:*

*(a) shall, as far as practicable, endeavour to ensure that, if the State or Territory were redistributed in accordance with the proposed redistribution, the number of electors enrolled in each Electoral Division in the State or Territory would not, at the projection time determined under section 63A, be less than 96.5% or more than 103.5% of the average divisional enrolment of that State or Territory at that time; and (b) subject to paragraph (a), shall give due consideration, in relation to each proposed Electoral Division, to:*

*(i) community of interests within the proposed Electoral Division, including economic, social and regional interests;*

*(ii) means of communication and travel within the proposed Electoral Division;*

*(iv) the physical features and area of the proposed Electoral Division; and*

*(v) the boundaries of existing Divisions in the State or Territory;*

*and subject thereto the quota of electors for the State or Territory shall be the basis for the proposed redistribution, and the Redistribution Committee may adopt a margin of allowance, to be used whenever necessary, but in no case shall the quota be departed from to a greater extent than one-tenth more or one-tenth less.*

*(3A) When applying subsection (3), the Redistribution Committee must treat the matter in subparagraph (3)(b)(v) as subordinate to the matters in subparagraphs (3)(b)(i), (ii) and (iv).*

The first of only 2 absolute directives is that enrolment numbers must not deviate by more than +/- 10% from the current State or Territory average [as detailed below section 3(b)(v)]. The words *but in no case shall the quota be departed from to a greater extent than one-tenth more or one-tenth less*' leave no room for any exception to this requirement.

The +/-3.5% at the projection time is to be met as far as practicable. As average enrolments have increased, the number of electors that make up that +/-3.5% becomes greater, so achieving the projected target range has become easier to meet. The phrase '*far as practicable, endeavour to ensure that*' is not an absolute directive, but should be met at all times except in the case of an exceptional circumstance.

The Act clearly states that after the numeric requirements have been met, the Committee *shall give due consideration* to subparagraphs 3(b)(i), (ii), (iv) and 3(b)(v) with qualification.

As is directed in Section 3A - and this is the part I believe other Redistribution Committees have got wrong - **THEN, AND ONLY THEN**, are the existing boundaries to be considered. Again, we have an

absolute directive - '*the Redistribution Committee **must** treat the matter in subparagraph (3)(b)(v) as **subordinate** to the matters in subparagraphs (3)(b)(i), (ii) and (iv).*' (Bold underline my emphasis.)

As I read Section 3A; it clearly instructs the Redistribution Committee, to treat each Redistribution, of a State or Territory as a virtual 'blank canvas': To redefine new boundaries almost from scratch.

This is where I believe some other Redistribution Committees have got it wrong. For example, the 2014-5 NSW Redistribution Committee adopted the principle:

- *the maximum number of electors are retained in their current electoral division.*

There is nothing in Part IV of The Act - neither written nor implied - that could give the impression that the 'elector retention' principle was a valid principle interpreted from The Act.

And the more I re-read The Act, the more I believe that this 'elector retention' principle is contrary not only to what is written; but also contrary to the intent of The Act. Though to what extent the application of the 'elector retention' principle invalidates or renders unlawful any Redistribution that has applied this principle I have not yet taken the time to determine.

I therefore ask the Redistribution Committee for Tasmania to take note of what I believe was a misinterpretation of the intent of The Act by the NSW Redistribution Committee, and NOT to set as one of its principles, that "*the maximum number of electors are retained in their current electoral division.*"

In my submission / proposal below, I have taken the approach as per my understanding of Sections 66(3) and (3A) of The Act when proposing my new Divisional boundaries.

## **My principles for strong CED boundaries**

The people most impacted by Electoral Redistributions are the voters themselves. I believe it is critical that any new boundaries proposed are simple, strong and easily recognisable; not just by those with a surveying background, but by the electors at large.

As a rule I will try and unite a complete LGA or locality in a Division where this is practical to do so - especially in regional areas.

In more urban areas I will often follow a road, rail line or a watercourse where this provides a clear and preferably continuous boundary.

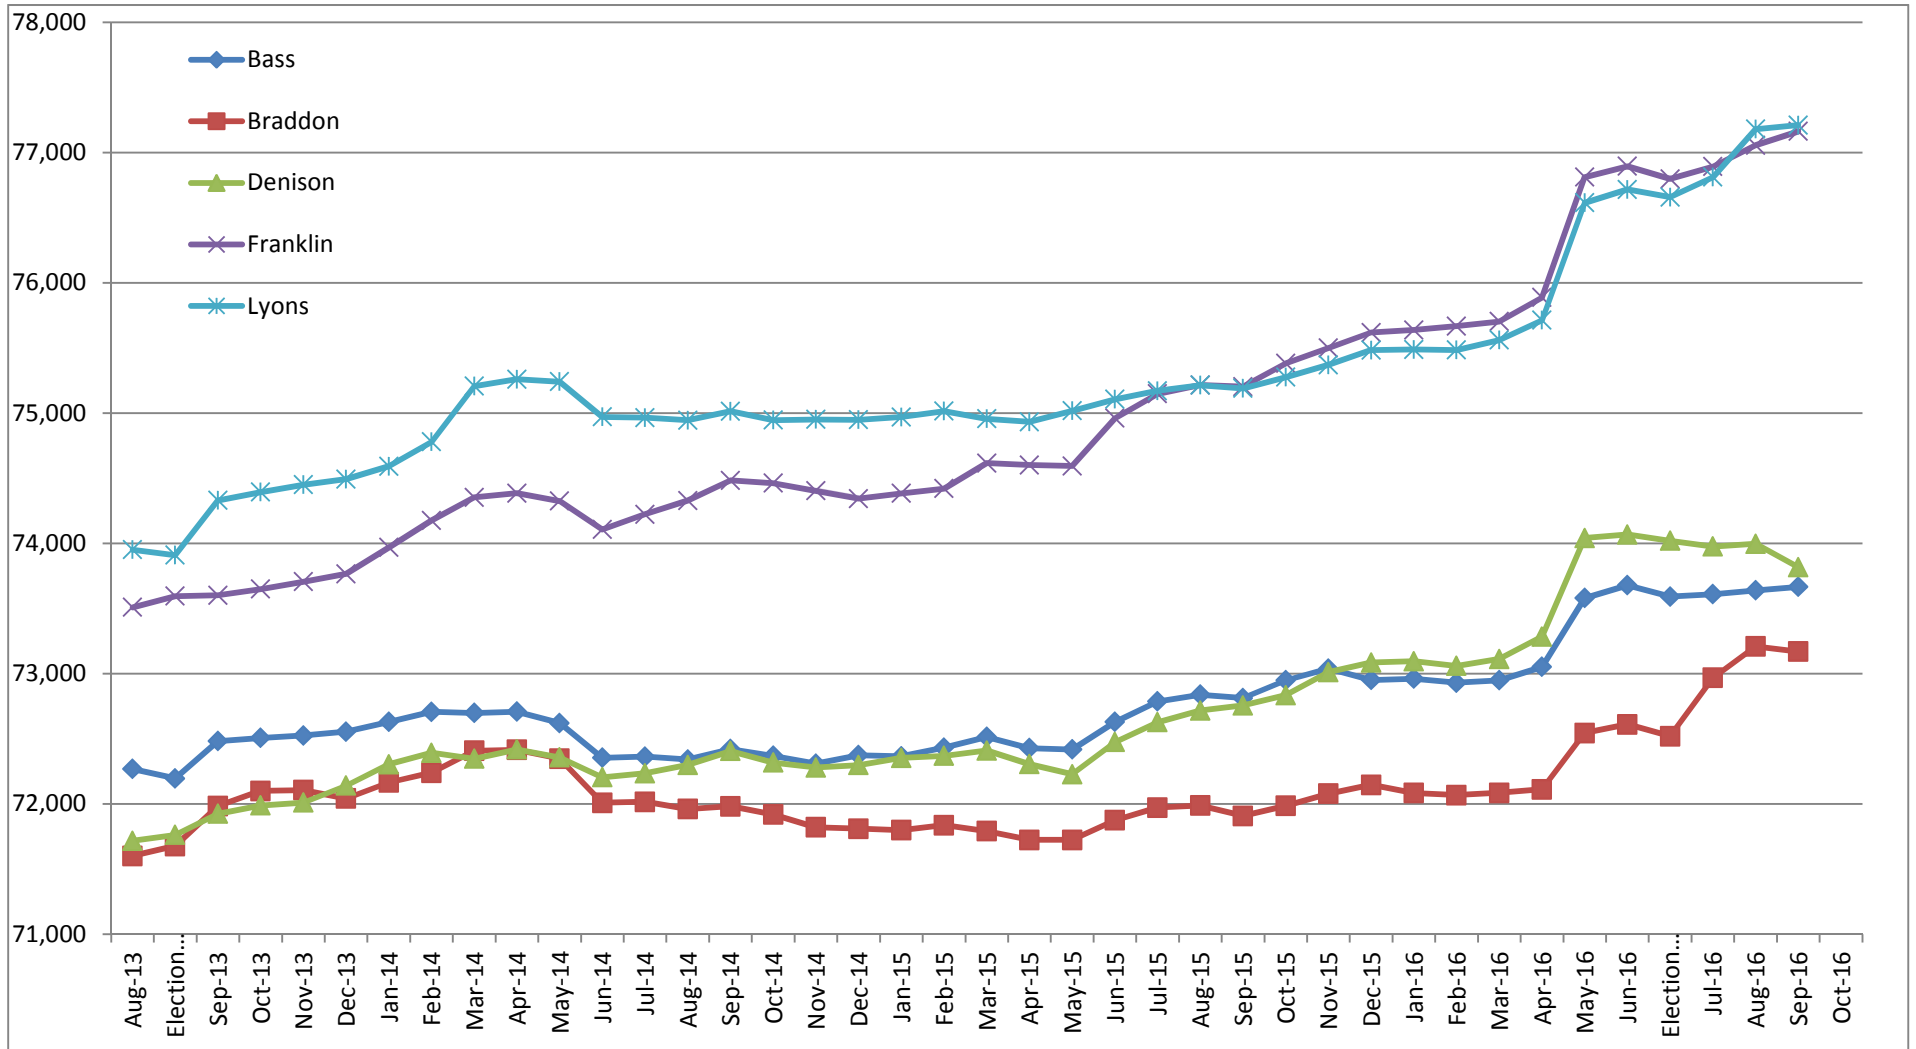

Specifically; if my boundary is a road, the boundary will follow the centre line of the road. If the road is a divided road, then the boundary will follow the centre of the median strip.

If my boundary is a rail line, then the boundary is the centre of the two rails. If there are multiple lines; the boundary is the centre of either the middle track or between the 2 inner-most tracks.

If my boundary is a watercourse, it will follow the deepest part of that watercourse.

Whilst these boundaries may not necessarily align with Locality, LGA, SA1 or current Divisional boundaries, I believe they provide the clearest definition of these types of boundaries.

## Enrolment by Division: Monthly enrolment data published by the AEC since 2013 Election

Enrolment by Division as provided by the AEC via their monthly "Number of electors enrolled in each Division" publication in the Commonwealth Government Gazette: Aug 2013 - Sep 2016

## Divisional enrolment analysis

The chart on the previous page shows changes to Divisional enrolment from the 2013 election until the commencement of the Redistribution in September.

It clearly shows that the slowest growing Division over the past 3 years has been Braddon, with Bass and Denison not far ahead in growth terms. Franklin and Lyons on the other hand are growing relatively rapidly as they share parts of outer suburban and peri-urban Hobart.

## Divisional analysis and proposed new Divisions

After the dust settled on the 2016 Federal Election and submissions for the State Redistributions of Queensland and South Australia were concluded, I managed to find some time to do a draft run of the Tasmanian Redistribution using population data from the 2011 Census.

Whilst this data contained the entire population of the State as it was 5 years ago; and not just those on the Electoral Roll, it did give me an opportunity to test a number of possible boundary change configurations for the State.

I set myself a target that each of these proposed Divisions would have a population target within +/- 3.5% of the State Average, and successfully created 5 'draft' Divisions that met that target on more than 1 occasion.

The layout that I was happiest with will be my "Plan A" based on the Current and Projected enrolment data published by the ABS.

**Qualification:** Whilst the population by SA1 data supplied by the ABS breaks down SA1's that are divided between Divisions, it does not break down SA1's that contain parts of multiple LGA's to a population by LGA by SA1 level where multiple LGA's are in the same CED.

In my analysis of the State, I found some 52 SA1's that contain more than 1 LGA within their boundaries.

Therefore, where such situations exist, I have had to make some assumptions about the precise number of electors for each LGA within each individual SA1. These assumptions are based on the 2011 Census data and broken down to Mesh Block level.

For example if the 2011 Census data had 93% of the population by Mesh Block in 1 LGA and 7% of the population by Mesh Block in the other LGA; then that is the percentages I have applied to the SA1 to divide the elector population between LGA's.

## Braddon

Braddon	Existing Division	State Average	Var. from Avg.
<b>Current enrolment (1/9/2016)</b>	73,208	75,014	-2.41%
<b>Projected enrolment (14/5/2021)</b>	73,286	76,983	-4.80%
<b>Growth</b>	0.11%	2.62%	-2.52%

Note: The above table is copied from Excel so please allow for .01% calculation discrepancies due to rounding factors

Starting on the NW Coast, Braddon was the first Division I assessed.

Braddon is not only the Division with the lowest current enrolment, its projected growth over the next 4 ½ years is almost zero. By the projection date it will be in excess of -3.5% under quota.

Braddon shares electoral boundaries with both Franklin and Lyons, though any transfer of electors can realistically only come from Lyons.

Given Braddon's prominent community of interest is the north coast of Tasmania - western side; the most logical place for Braddon to gain electors from is the LGA of Latrobe.

This gain of electors from Latrobe LGA not only would unite all of Latrobe LGA in Braddon from a communities of interest perspective, it would also better meet section 3(b)(iv) - *the physical features and area of the proposed Electoral Division*.

Uniting the entire Latrobe LGA within Braddon puts this Division back within both current and projected enrolment requirements.

No further changes to Braddon are required.

In my deliberations I had entertained thoughts of transferring Kentish LGA from Lyons to Braddon, which could have been offset by transferring West Coast LGA from Braddon to Lyons. However, the numbers did not stack up. I determined there was no net benefit in dividing Kentish LGA between the CED's Braddon and Lyons.

### Table of Transfers - Braddon

Division	Transfer Details	Current	Projected
<b>Braddon</b>		<b>73,208</b>	<b>73,286</b>
From Lyons	Latrobe SA2 - balance	377	401
From Lyons	Port Sorell SA2 - balance	4,145	4,296
From Lyons	Sheffield - Railton SA1 #6109109 - part: Latrobe LGA component only	13	13
<b>New Division</b>		<b>77,743</b>	<b>77,996</b>
<b>Variation</b>		<b>3.64%</b>	<b>1.32%</b>

## Bass

Bass	Existing Division	State Average	Var. from Avg.
Current enrolment (1/9/2016)	73,632	75,014	-1.84%
Projected enrolment (14/5/2021)	75,058	76,983	-2.50%
Growth	1.94%	2.62%	-0.69%

Though within numerical requirements at both current and projected points, I found there was room to improve Bass to better comply within section 3(b)(i) - *community of interests within the proposed Electoral Division, including economic, social and regional interests*, as well as 3(b)(ii) - *means of communication and travel within the proposed Electoral Division*.

As Bass only shares a Divisional boundary with Lyons; any transfer of electors can only be between Bass and Lyons.

Currently, West Tamar LGA is divided between Bass and Lyons. However from a means of communication and travel perspective, the main road into the Lyons portion of West Tamar LGA is the West Tamar Highway – the A7. This has its source in Launceston and within the Division of Bass.

There are only a handful of relatively minor roads connecting Lyons' component of the West Tamar LGA with the rest of the Division of Lyons via the Meander Valley LGA.

Therefore, from both a community of interests perspective and a means of communication and travel perspective (both of which must be considered **before** existing boundaries according to The Act), there are more than sufficient grounds to transfer the balance of West Tamar LGA from the Division of Lyons to the Division of Bass.

This strengthens Bass' community of interest around the Launceston and Lower Tamar region as I indicated in my initial assessment, above.

However, the number of electors transferred from Lyons to Bass puts Bass well in excess of numerical requirements. To bring Bass back within quota I propose that the LGA's of Dorset and Flinders are transferred to the Division of Lyons.

There are a number of roads that directly connect Dorset LGA with the rest of Lyons including the Tasman Highway – the A3. These means of communication and travel connections are far stronger than the current connections between the rest of the Division of Lyons and its part of the West Tamar LGA.

These adjustments put Bass almost spot on the projected average enrolment for 14/5/2021. No further changes are necessary.

Though Lyons was the next logical Division to assess, its final boundaries couldn't be determined until the boundaries of both Denison and Franklin had been completed.

## Table of Transfers - Bass

Division	Transfer Details	Current	Projected
<b>Bass</b>		<b>73,632</b>	<b>75,058</b>
From Lyons	Beauty Point - Beaconsfield SA2 - all	2,992	2,980
From Lyons	Deloraine SA1 #6105411 - part: West Tamar LGA component only	0	0
From Lyons	Grindelwald - Lanena SA2 part - balance of West Tamar LGA only	4,389	4,553
From Lyons	Legana SA2 - balance	180	182
From Lyons	Prospect Vale - Blackstone SA1 #6104402 part: West Tamar LGA only	0	0
From Lyons	Riverside SA1#6104609 balance	84	86
From Lyons	Westbury SA1 #6105710 part - West Tamar LGA component only	31	31
To Lyons	Dilston - Lilydale - part: Dorset LGA only	-17	-18
To Lyons	George Town SA1 #6105921 - part: Dorset LGA only	0	0
To Lyons	Scottsdale - Bridport SA2 - part: Flinders and Dorset LGA's only	-5,833	-5,851
To Lyons	St Helens - Scamander SA2 - part: Dorset LGA only	0	0
<b>New Division</b>		<b>75,458</b>	<b>77,021</b>
<b>Variation</b>		<b>0.59%</b>	<b>0.05%</b>

## Thoughts behind my proposal for Denison and Franklin

As I stated above, I do not believe that the current layout of Franklin complies with Section 3(b)(ii) of The Act - *means of communication and travel within the proposed Electoral Division*

No other Division in the Commonwealth is divided by water unless there is no land-based connection whatsoever between either part – EG the CED of Braddon and King Island.

Franklin is unique in that both sides of the Division can be easily accessed via connecting roads – it's just that any person attempting to cross from one side of the Division to the other needs to leave the Division of Franklin and travel through the Division of Denison in order to do so.

The current layout of Franklin is no different to placing the Bellarine and Mornington Peninsulas in the same Division in Victoria, or placing Manly and Watsons Bay in the same Division in NSW but not including the Sydney Harbour Bridge.

It doesn't make sense!

Resolving this east-west divide of the existing Franklin required a dramatic re-drawing of both Denison and Franklin; dividing both Divisions almost in 2 from their current boundaries.

One CED can neatly accommodate the LGA's of Hobart, Huon Valley and Kingborough; the other would incorporate all of Glenorchy LGA plus parts of both Brighton and Clarence LGA's.

Further complicating this matter is that the Division of Lyons is now under projected quota after supplementing enrolment shortfalls to Bass and Braddon in its north.

## Denison

Denison	Existing Division	State Average	Var. from Avg.
<b>Current enrolment (1/9/2016)</b>	73,993	75,014	-1.36%
<b>Projected enrolment (14/5/2021)</b>	76,019	76,983	-1.25%
<b>Growth</b>	2.74%	2.62%	0.11%

Before determining which existing Divisional Name would be allocated to each of the new proposed Divisions, I was mindful of the requirement that the Division with the greatest number of electors retained from the old Division should have the name allocated to the new Division.

With the more SW of these new Divisions incorporating the LGA's of Hobart, Huon Valley and Kingborough in their entirety; some 40,983 out of the 73,993 existing electors in Denison (or 55.39%) would remain in Denison under the new boundaries.

I therefore propose that the new version of Denison consists of the LGA's of Hobart, Huon Valley and Kingborough in their entirety, in addition to Macquarie Island.

## Table of Transfers - Denison

Division	Transfer Details	Current	Projected
<b>Denison</b>		<b>73,993</b>	<b>76,019</b>
From Franklin	Derwent Valley SA1 #6106612 - part: Huon Valley LGA component only	0	0
From Franklin	Huon - Bruny Island SA3 - all	14,311	14,752
From Franklin	Kingston - Huntingfield SA2 - balance	6,400	6,721
From Franklin	Kingston Beach - Blackmans Bay SA2 - all	7,772	8,150
From Franklin	Margate - Snug SA2 - balance	5,277	5,545
From Franklin	Wilderness - East SA2 - part: Huon Valley LGA component only	0	0
To Franklin	Austins Ferry - Granton SA2 - part: Glenorchy LGA component only	-2,630	-2,672
To Franklin	Berriedale - Chigwell SA2 - part: Glenorchy LGA component only	-3,950	-4,009
To Franklin	Claremont (Tas.) SA2 - part: Glenorchy LGA component only	-5,621	-5,677
To Franklin	Derwent Park - Lutana SA2 - all	-2,962	-3,062
To Franklin	Glenorchy SA2 - all	-7,748	-8,081
To Franklin	Lenah Valley - Mount Stuart SA1 #6102818 - part: Glenorchy LGA component only	-45	-44
To Franklin	Montrose - Rosetta SA2 - all	-3,615	-3,661
To Franklin	Moonah SA2 - all	-3,726	-3,876
To Franklin	Mount Wellington SA2 - part: Glenorchy LGA component only	0	0
To Franklin	New Town SA1 #6103007 - part: Glenorchy LGA component only	-24	-24
To Franklin	West Moonah SA2 - all	-2,689	-2,834
<b>New Division</b>		<b>74,743</b>	<b>77,247</b>
<b>Variation</b>		<b>-0.36%</b>	<b>0.34%</b>

## Franklin

Franklin	Existing Division	State Average	Var. from Avg.
<b>Current enrolment (1/9/2016)</b>	77,058	75,014	2.72%
<b>Projected enrolment (14/5/2021)</b>	80,997	76,983	5.21%
<b>Growth</b>	5.11%	2.62%	2.49%

The existing Division of Franklin was projected to be the fastest growing Division in the State. It was also projected to be outside +/-3.5% of average enrolment by the Projection Date. Franklin has to transfer electors out to stay within quota, regardless of how its boundaries are to be re-drawn.

In my proposal, Franklin gains Glenorchy LGA from the old Denison, retains the suburbs along the eastern shore of the Derwent River as well as gaining much of rapidly growing Brighton LGA from Lyons.

Brighton LGA is already divided between Franklin and Lyons. This proposal alters that division so that the more built up localities of Brighton and Bridgewater are now a part of Franklin.

In the west of Brighton LGA I propose the Franklin - Lyons CED boundary runs from the intersection of Millvale Rd and McGann Dr, Brighton; SE along McGann Dr and continuing SE along a road reserve until it meets the Brighton - Bridgewater locality boundary. From there, in an anti-clockwise direction along the Bridgewater locality boundary until it reaches the Derwent River. (See below)

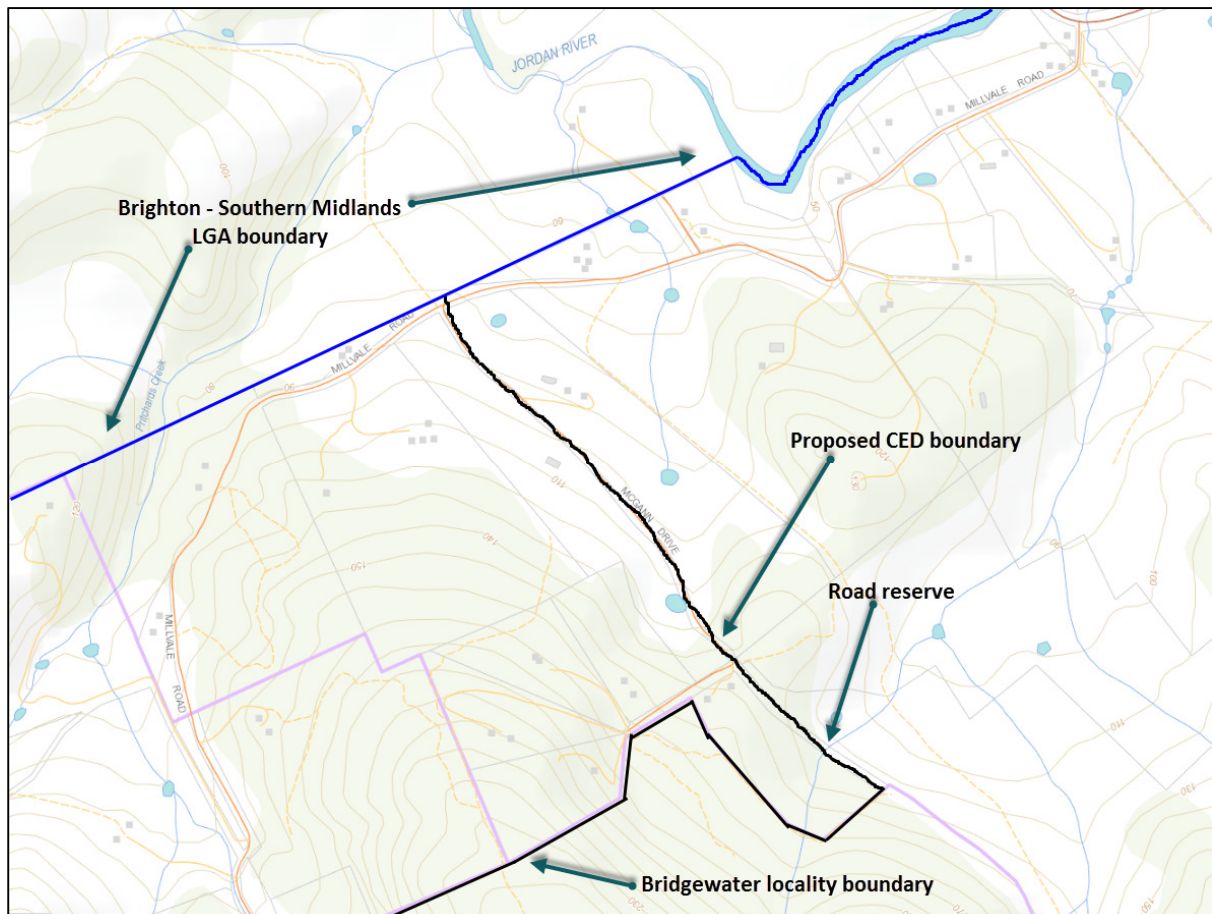

Figure 1 – proposed Franklin – Lyons CED boundary on western side of Brighton LGA (northern section).

[\(http://maps.thelist.tas.gov.au/\)](http://maps.thelist.tas.gov.au/)

(Please note: Both Google Maps and 'The List' name this road McGann Dr; ASGS Boundaries Online names the same road as Cobbs Hill Rd – just to add to the confusion!)

A less complicated version of this boundary is the eastern boundary of SA1#6100107, but as I noted above; I prefer locality boundaries to SA1 boundaries where possible.

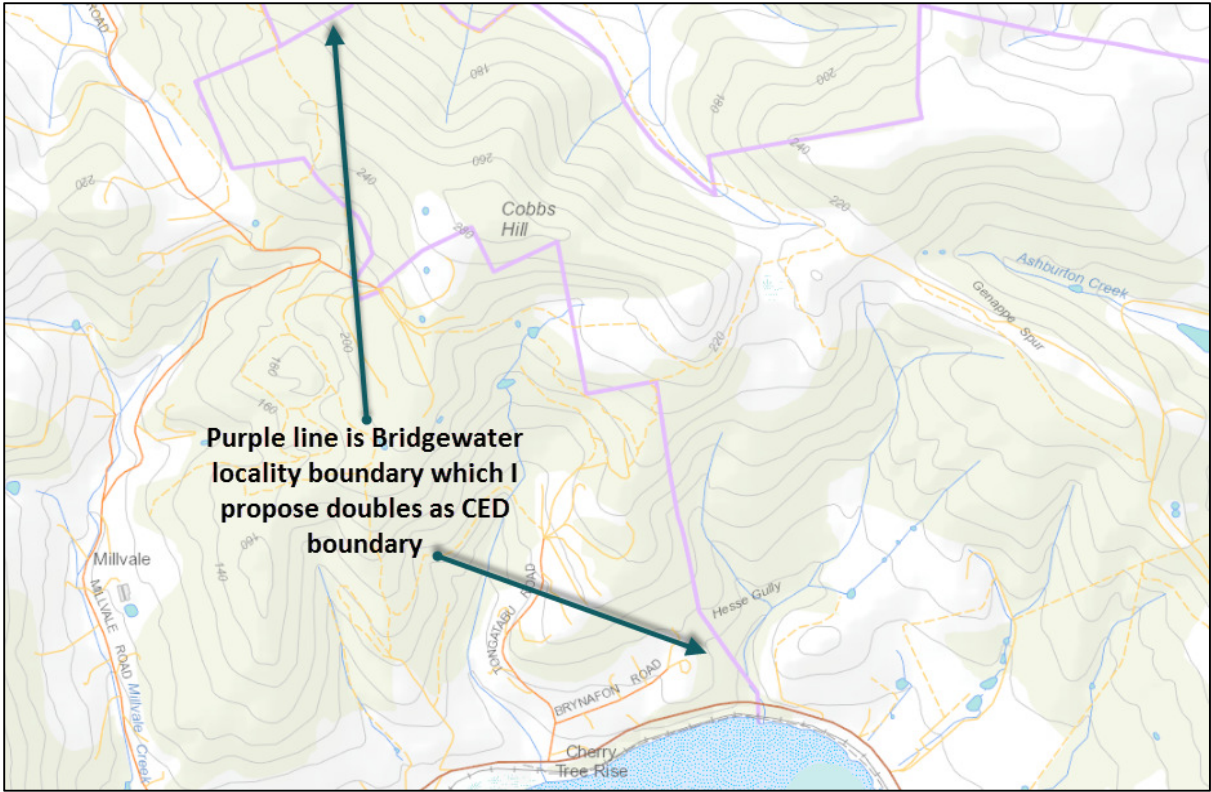

Figure 2 – proposed Franklin – Lyons CED boundary on western side of Brighton LGA (southern section). (<http://maps.thelist.tas.gov.au/>)

In the NE of Brighton LGA where the LGA boundary shares the Brighton - Pontville locality boundary running eastwards along the Jordan River (immediately to the N of Lachlan Court, Brighton); continuing in an easterly direction along the Jordan River; turning E along the Bagdad Rivulet then E again, along the Strathallan Rivulet until it meets the Brighton - Tea Tree locality boundary. Finally, turning SSE and in an anti-clockwise direction along the Tea Tree locality boundary until it meets the Clarence LGA boundary.

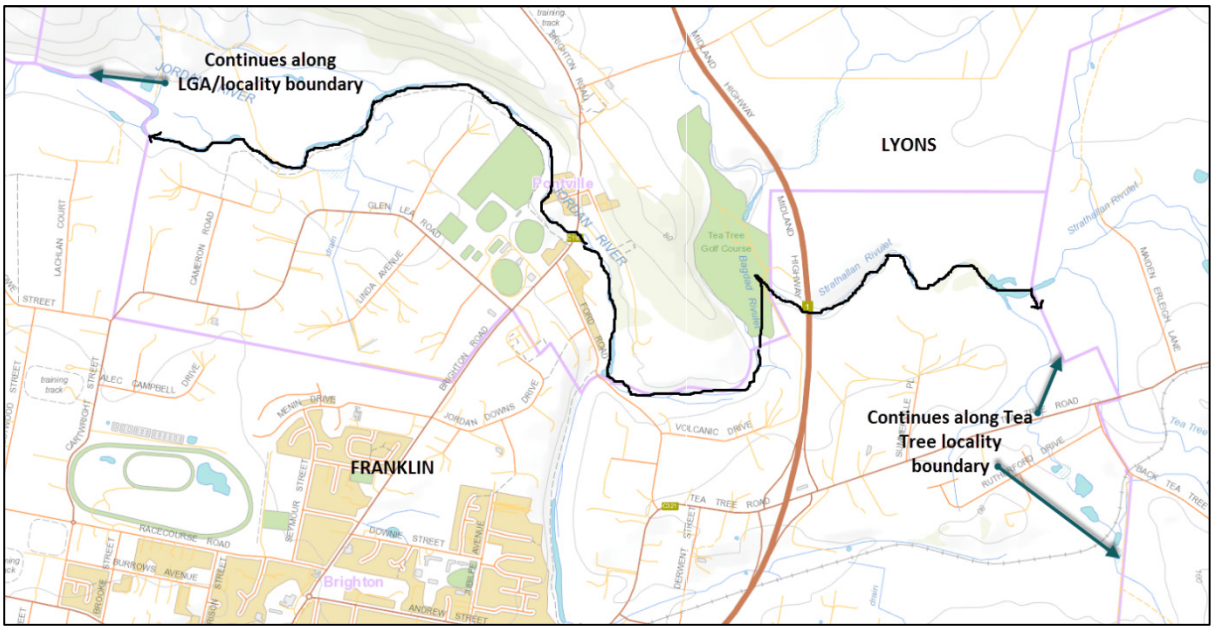

Figure 3 – proposed Franklin – Lyons CED boundary through Pontville (<http://maps.thelist.tas.gov.au/>)

This boundary was chosen because it contained a series of watercourses through the more populated areas, so was something that could easily be physically identified by the electors in this region. It also involved splitting a couple of SA1's so some assumptions on elector numbers have had to be made.

Now to the separation of Clarence LGA between the Divisions of Franklin and Lyons:

The Meehan Range will form the basis of my proposed boundary between Franklin to the west and Lyons to the east within Clarence LGA. This is a clear physical boundary which separates the more built-up western side of Clarence LGA from its more rural southern and eastern parts.

From N to S; my proposed Franklin – Lyons CED boundary follows the eastern locality boundaries of the following: Old Beach; Risdon; Risdon Vale; Lindisfarne; Warrane; Mornington; Cambridge (only the part of Cambridge that is SE of the Tasman Hwy from the Mornington – Cambridge locality boundary until the Tasman Hwy crosses Belbins Rd – see image below); Mount Rumney; Rokeby; Clarendon Vale; Rokeby (again); Oakdowns and Rokeby for a third time until its eastern locality boundary reaches Ralph's Bay at a place marked as Mill Point.

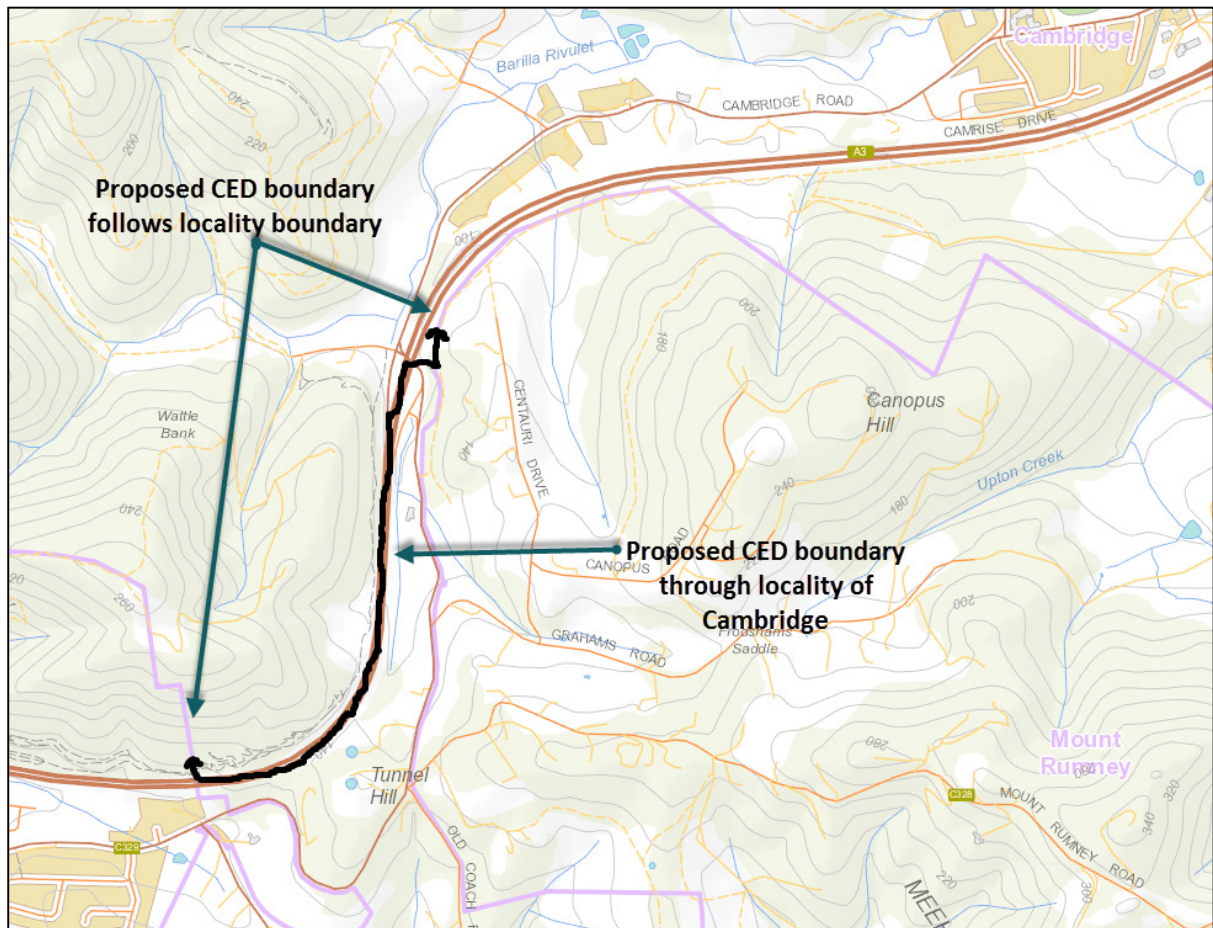

Figure 4 – proposed CED boundary dividing the locality of Cambridge between Franklin and Lyons (<http://maps.thelist.tas.gov.au/>)

Defining my proposed separation of Brighton and Clarence LGA's between Franklin and Lyons in words is not so easy, therefore, I've attempted a hand-drawn map (next page) which is not totally accurate, but at least gives the reader a concept of how my proposed version of Franklin would look.

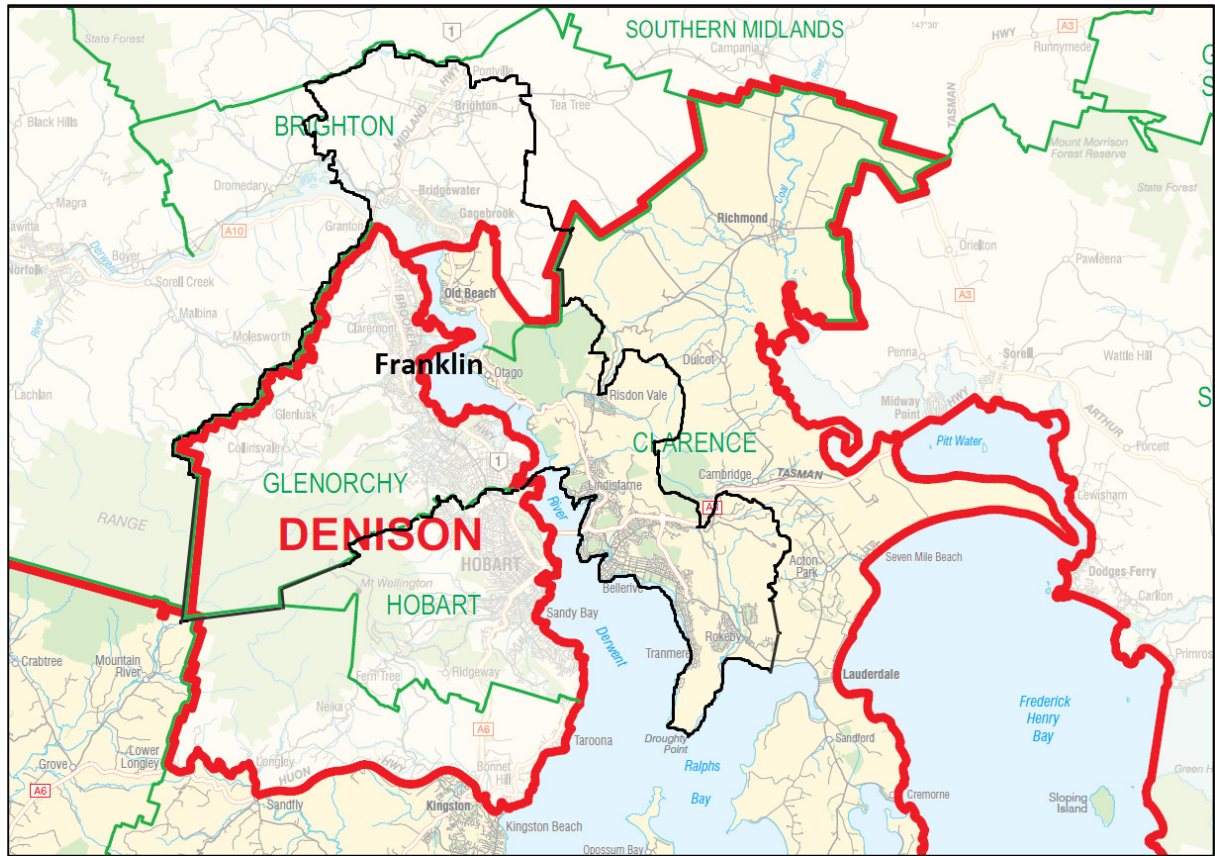

Figure 5 – My proposed version of Franklin within hand-drawn boundary (AEC current Division of Franklin)

This proposed version of Franklin is still divided by the Derwent River, but has direct road connections via the Bowen Bridge (Goodwood Rd), and the Bridgewater Bridge (Midland Hwy). This makes Franklin a contiguous Division as opposed to the totally divided current version.

Its communities of interest are; Hobart's northern and eastern suburbs and the Derwent River. Its physical features and area are likewise, the Derwent River and surrounding suburbs and peri-urban localities.

## Table of Transfers - Franklin

Division	Transfer Details	Current	Projected
<b>Franklin</b>		<b>77,058</b>	<b>80,997</b>
From Denison	Austins Ferry - Granton SA2 - part: Glenorchy LGA component only	2,630	2,672
From Denison	Berriedale - Chigwell SA2 - part: Glenorchy LGA component only	3,950	4,009
From Denison	Claremont (Tas.) SA2 - part: Glenorchy LGA component only	5,621	5,677
From Denison	Derwent Park - Lutana SA2 - all	2,962	3,062
From Denison	Glenorchy SA2 - all	7,748	8,081
From Denison	Lenah Valley - Mount Stuart SA1 #6102818 - part: Glenorchy LGA component only	45	44
From Denison	Montrose - Rosetta SA2 - all	3,615	3,661
From Denison	Moonah SA2 - all	3,726	3,876
From Denison	Mount Wellington SA2 - part: Glenorchy LGA component only	0	0
From Denison	New Town SA1 #6103007 - part: Glenorchy LGA component only	24	24
From Denison	West Moonah SA2 - all	2,689	2,834
From Lyons	Bridgewater - Gagebrook SA2 - part	4,145	4,211
From Lyons	Brighton - Pontville SA2 - part	3,589	3,931
From Lyons	Old Beach - Otago SA1 #6100303 - balance	320	384
To Denison	Derwent Valley SA1 #6106612 - part: Huon Valley LGA component only	0	0
To Denison	Huon - Bruny Island SA3 - all	-14,311	-14,752
To Denison	Kingston - Huntingfield SA2 - balance	-6,400	-6,721
To Denison	Kingston Beach - Blackmans Bay SA2 - all	-7,772	-8,150
To Denison	Margate - Snug SA2 - balance	-5,277	-5,545
To Denison	Wilderness - East SA2 - part: Huon Valley LGA component only	0	0
To Lyons	Cambridge SA2 - all exc. SA1 #6100505	-5,515	-5,669

## Lyons

Lyons	Existing Division	State Average	Var. from Avg.
<b>Current enrolment (1/9/2016)</b>	77,181	75,014	2.89%
<b>Projected enrolment (14/5/2021)</b>	79,555	76,983	3.34%
<b>Growth</b>	3.08%	2.62%	0.45%

By sharing Divisional boundaries with all 4 other Divisions in Tasmania, Lyons was always going to be significantly affected when any Redistribution involving a transfer of electors was required.

However, I was just as mindful of creating some significant communities of interest for Lyons as I was for the other 4 Divisions.

My proposal intentionally removes from Lyons, its part of the central North Coast as well as the peri-urban communities of Bridgewater and Brighton. My proposed Lyons represents more of rural Tasmania than its current boundaries incorporate. In addition, Lyons economic community of interest has been strengthened in that it now contains both of Tasmania's largest airports; Hobart (Cambridge) and Launceston (Western Junction).

In its north, the loss of its part of Latrobe and West Tamar LGA is offset by the gains in Dorset and the Flinders Island group. Its singular coastal footprint now extends from Bridport in the NE, all the way around to Lauderdale's locality boundary with Rokeby at Mill Point in Ralph's Bay.

I have also deliberately set Lyons' projected enrolment figures slightly lower than average but still within the required numerical limits. This in some way offsets its status as being the largest Division in Tasmania by area.

## Table of Transfers - Lyons

Division	Transfer Details	Current	Projected
<b>Lyons</b>		<b>77,181</b>	<b>79,555</b>
From Bass	Dilston - Lilydale - part: Dorset LGA only	17	18
From Bass	George Town SA1 #6105921 - part: Dorset LGA only	0	0
From Bass	Scottsdale - Bridport SA2 - part: Flinders and Dorset LGA's only	5,833	5,851
From Bass	St Helens - Scamander SA2 - part: Dorset LGA only	0	0
From Franklin	Cambridge SA2 - all exc. SA1 #6100505	5,515	5,669
From Franklin	Risdon Vale SA1 #6101008 - part: Locality of Grasstree Hill	69	69

Dorset	5,189	5,189									5,189
Flinders	680	680									680
Georgetown	4,952	4,952					4,952				
Glamorgan-Spring Bay	3,683					3,683					3,683
Glenorchy	33,940			33,940					33,940		
Hobart	37,584			37,584				37,584			
Huon Valley	12,262				12,262			12,262			
Kentish	4,665					4,665					4,665
King Island	1,033		1,033				1,033				
Kingborough	27,401			4,495	22,906				27,401		
Latrobe	8,685		3,975			4,710		8,685			
Launceston	47,061	47,061					47,061				
Meander Valley	15,022	7,233				7,789	7,233				7,789
Northern Midlands	9,799					9,799					9,799
Sorell	11,181					11,181					11,181
Southern Midlands	4,670					4,670					4,670
Tasman	1,870					1,870					1,870
Waratah-Wynyard	10,546		10,546					10,546			
West Coast	2,866		2,866					2,866			
West Tamar	17,775	9,943				7,832	17,775				

The net effect of my proposal is that there are now only 3 LGA's divided between CED's as opposed to the current 5 LGA's divided between CED's.

## In closing

As noted above, this is the 5<sup>th</sup> Commonwealth Electoral Redistribution I have contributed to since 2013.

In that time I have also contributed to 3 State Redistributions and 2 Joint Standing Committee on Electoral Matters inquiries.

Through these redistributions I have discovered a handful of independent, like-minded individuals who share my passion for this part of the political process, but who are not aligned with any political party.

Some of us have managed to contact each other when our contact details have been inadvertently left on a state-based submission. Our level of contact remains infrequent and we do not “compare notes” before compiling our individual submissions. I look forward to reading their proposals when they are all published in early December.

Speaking of like-minded individuals; Darren McSweeney, thank you for your kind words in your Comments on Objections to the Northern Territory Redistribution. You’re the last of the regular contributors that I don’t have contact with outside the Redistribution process. Find me on LinkedIn.

The AEC's Redistribution page has been updated to advise that the next Queensland Redistribution needs to commence within 30 days of 15/12/16 so it's now off to Queensland to do some preliminary assessment prior to that Redistribution commencing. Fortunately we have the State-based enrolment data to work with from earlier this year.

### **To the AEC;**

The 30 day timeframe in which suggestions are allowed to be submitted is sufficient for the smaller States and the Territories. But the 30 day timeframe for suggestions to be submitted is not sufficient for the 3 larger states of New South Wales, Queensland and Victoria.

These 3 States require a more intense level of analysis due to the higher number of potential changes that need to be made and a greater number of electors and Divisions that need to be considered and assessed.

The closing date for suggestions for the larger States should be based on a formula of assessing 5 Divisions per week rounded to the nearest Friday. EG; Queensland should be 6pm on the 6<sup>th</sup> Friday after the Gazette notice is published; Victoria should be the 7<sup>th</sup> Friday and NSW should be the 9<sup>th</sup> Friday after the Gazette notice is published.

**To the Redistribution Committee for Tasmania;**

I don't know if there will be too many proposals as radical as this for Denison and Franklin, but I can honestly put my hand on my heart and say my proposal conforms to the wording and the intent of Sections 66(3) and (3A) of the Commonwealth Electoral Act (1918) as I understand that wording and intent to be.

For most of the Commonwealth Redistributions that I have contributed to, the Redistribution Committees have treated the existing boundaries as the starting point for any boundary changes.

But this is precisely what The Act **doesn't** instruct. It specifically states: Existing boundaries **last!**

The existing boundaries are nothing more than the framework of a house. The external framework must remain, but inside the house that framework can be moved time and again as the needs of the house change.

It's taken me a couple of years, but I think I finally get that!

I implore the Redistribution Committee for Tasmania; please don't make the same mistakes that your NSW counterparts did.

**The objectives of a Redistribution are not to retain as many existing boundaries as possible or to keep elector movement between Divisions to a minimum.**

**If that was what the intention of a Redistribution was supposed to be; then that is what would be legislated in The Act.**

**It isn't – and it isn't for a reason!**

Approaching a Redistribution knowing that retaining existing boundaries is not the top priority, but the bottom one, really does open up new possibilities. You get to view each State in whole new light. Hence I have submitted the proposal I have.

Before the Redistribution Committee convenes to determine Tasmania's new boundaries, we will all have the opportunity to comment on other submissions.

I look forward to the opportunity to do so in the next few weeks.
