Hi there

My only comment is to suggest the name of Bean be changed. This is a good opportunity to have an indigenous person and/or woman. Reading your summary of the guy, I don't see the connection to the place of the proposed electorate. But the place is rich with indigenous history and off the top of my head I can think of a woman who made a significant contribution (Nancy Burbidge - the downside with her though is that it gives us two electorates named after scientists which might appear unbalanced).

This is a positive and non-controversial opportunity that would be a shame to miss.

Kind regards

Ryan
