RE: Electoral Boundary Re-distribution (Boothby)

To whom it may concern

Re Aust Labor Party's objection 312. I find the assertion our objection to the boundary change was in some way a "robo-submission" as offensive. We acted as we feel strongly to do so not due to political interests. My suburb is more aligned to Blackwood and Marion than the proposed suburbs of Kingston. Demographics of our suburb are similar to Marion and Blackwood. We also conduct much of our business in these areas, family members work and we shop there for virtually all of our needs. We want our suburb to remain in Boothby not because of a so called robo-submission but because it simply makes sense and we have a connection to those suburbs not the ones further South.

Thank you and Regards,

Malcolm and Jennifer Balkwill
