Subject: South Australian Federal Electorate redistribution.

To the Redistribution Committee for South Australia,

I write to make suggestions to the South Australian Federal Redistribution currently being undertaken by the Australian Electoral Commission.

I am a constituent of the Federal Division of Mayo.

I do not believe that the Division of Mayo should be abolished in this redistribution process. I note that the committee responsible for managing the redistribution must consider;

1. Communities of Interest within the proposed electorate, including economic, social and regional interests.
2. Means of communication and travel within the proposed federal electorate
3. The physical features of an area of the proposed federal electorate.

With these criteria in mind, I do not believe that the Division of Mayo should be abolished. We have just been through a testy discussion within the Adelaide Hills Council area to retain a ward system that guarantees the different interests within the AHC area are represented at a local level. It demonstrates how keen the electors are to have their issues and concerns heard and considered. To have the largely rural areas of Mayo lumped with urban areas of Adelaide which be orders of magnitude worse and I would strongly object.

Further addressing your criteria:

Communities of Interest

As a constituent of Mayo, I know that the collaboration between Federal and Local Government is incredibly important. Mayo includes the entirety of the Adelaide Hills Council, Mount Barker District Council, Alexandrina Council, Victor Harbor Council, The District Council of Yankalilla and the Kangaroo Island Council. To abolish Mayo and split these councils between two or three electorates would mean that my local community is not represented consistently.

The community of Mayo has shared interests and passions. Mayo has the highest percentage of volunteers in Australia, which speaks to our shared community spirit. Many of us like to attend local country shows or gather to watch the local sporting teams play on the weekend.

In an economic sense, Mayo contains the vast majority of South Australia's horticulture industry and seven distinct wine regions. I believe it is better that these important businesses in our community are represented by someone who understands the issues they are facing, rather than being represented by someone based in the metropolitan area.

Physical features of Mayo

There are distinct physical features that define Mayo from the metropolitan electorates and the rural electorate of Barker, including the Hills Face Zone, the Onkaparinga River and the Lower Lakes.

The Hills Face Zone is a large planning zone in South Australia that restricts development in the Adelaide Foothills and Mount Lofty Ranges. As a result of this zone, there is an effective barrier between metropolitan Adelaide and the communities of the Adelaide Hills. It does not make sense for these two distinct areas to be represented by a metropolitan based electorate.

Population Growth in Key Areas

I know that the AEC must attempt to make sure all of the remaining ten electorates have a similar population. Mayo currently has 3 fast growing communities in Mount Barker, Victor harbor and Strathalbyn. Mount Barker in particular currently has a population 34,000, but this is projected to increase to 55,000 by 2036. It would not be fair for an area of this size to be included within a metropolitan seat boundary, as the needs and experiences of the voters would be considerably different.

I hope you will consider my submission, and that you will see fit to keep the Division of Mayo as one of the ten electoral divisions in South Australia.

Yours sincerely, Jeffrey Ayres [REDACTED]
