To whom it may concern,

I would like to comment on the objections to the Commission's proposal for the seats of Hotham, Bruce and Isaacs.

I agree with the various submissions that call for fewer electors to be moved between these electorates and for the boundary between Isaacs and Bruce to be re-instated to the Pakenham Train Line.

I particularly endorse Objection 172's proposal to make Springvale Road and the Pakenham Train Line the hard boundaries for Isaacs/Hotham/Bruce, which creates the strongest boundaries and communities of interest for this region and, using the boundaries proposed in the map in Objection 172, keeps all three seats within the permissible number of electors.

Thank you for your consideration.

Andrew Norman
