Additional information: I object to the redivision and renaming of the Federal Seat of Corangamite. I fail to understand the benefits of the redistribution and I object to the renaming of Corangamite to Cox. Geelong and the South West are known communities to have been built on the back of the sheep - I therefore submit Lord SOMERS or Senator GUTHRIE as names of the seat if Corangamite must be lost.

1928 - Geelong's new Wool Exchange In Corio Street, a handsome addition to the ever-increasing number of buildings in that city, was opened recently by Senator J. F. Guthrie before the commencement of the first sales. The function was attended by a large number of brokers, buyers, growers, and others Interested in the wool trade. The president of the Geelong Wool Brokers' Association (Mr. D. Milne) presided, and explained that the Governor (Lord Somers) was unable to perform the opening ceremony owing to Illness, but that Senator Guthrie, at short notice, had agreed to do so. Senator Guthrie, in an interesting speech, said: The wool industry with which most of you are associated is the oldest known industry in the world. It is the oldest and by far the most important in Australia. The history abounds with records of dogged determination, self-sacrifice, loss, pluck and romance. It is very largely the history of Australian settlement development and wealth
