Victorian Redistribution objections uploaded from the AEC website.

Name: Damien Marchant

Organisation: ALP Belmont Branch

Address: [REDACTED]

Phone number: [REDACTED]

Additional information: Submission made on behalf of the ALP Belmont Branch members. Please do not publish names and addresses.

Submission made on behalf of members by Vice Secretary.

To the AEC – Redistribution Submission

Submission of the following members of the Belmont Branch of the Australian Labor Party as individuals named below.

We submit that the **newly** drawn boundaries of the electorates of Corio and Corangamite reflect the character and communities of interest, of the citizens of those two electorates more effectively than the former boundaries.

In addition the boundaries of Corio substantially reflects the community of interest of Geelong residents and the proposed boundaries of Cox effectively reflects the community of interest of the emerging Bellarine/ Surf Coast and South Coast communities.

Furthermore it is the view of these individuals that Colac represents more effectively a community of interest with the Wannon electorate with regard to the shared agribusiness, transport connections and economic links.

Thank you,

Belmont Branch Members
