Dear Sirs,

It would appear you are proposing to shift the boundaries of the electorate in Geelong

I would like to propose my objection to the change which affects my Suburb of Highton and Belmont.

These suburbs are clearly well within the boundaries of Geelong to split a large country city in half and impose issues that affect small country towns will impact on both areas. Towns like Colac have there own issues which should be addressed as a separate entity not lost in the noise of the majority of voters from Geelong.

Please re look at the proposed boundaries based on needs not numbers.

Deb Fribbins
Highton
