Hi Evan.

The entity is definitely on our (both DPRR and authorisations) radar and we are monitoring. It is likely we will correspond with them about registration/authorisation matters.

ss 47C, 47E(d)

Suggest a response along the following lines:

The AEC is aware of the entity and is addressing disclosure and authorisations considerations directly with the entity. Should the entity be required to register as a significant third party or an associated entity, they will appear on the AEC's Transparency Register.
