

Further objection number 3

Rhiannon Menegon

1 page

Dear AEC Staff,

I would like to raise my objection to the modification of the electoral boundary which will place the Meander Valley (MV) area within Lyons.

I firmly believe that this area socially & economically has far closer ties to the current electoral position within Bass. Most of the population of the MV defers to the city of Launceston as a business, banking, health and support centre. The issues that affect Launceston have direct outcomes to the residents of the Meander Valley.

I live in Hadspen and work as a nurse and Paramedic. I care for a population area ranging from Deloraine through to Launceston, George Town, Beaconsfield, Lilydale, Scottsdale, Legana, Evandale and beyond. Funding in all areas of health alone should be considered towards this whole northern population group.

Please dont split this down the middle!

I cannot rationally understand how placing the northern border of Lyons where you are proposing helps the residents of such a wide area. Tasmania has a uniquely widespread population, and should be considered as such.

Best regards

Rhiannon Menegon
