Additional information: Comments attached re Boothby

Splitting our communities in half between the federal electorates of Boothby and Kingston would mean less effective parliamentary representation for our area. I believe that these proposed changes would substantially disrupt our community in Boothby. Our current southern boundary is ideal in maintaining our federal electorate of Boothby as one centred on the southern and inner southern suburbs of Adelaide. There is a natural environmental boundary that separates the federal electorates of Boothby and Kingston through the areas that include the Boral Linwood Quarry, Marino Conservation Park, Glenthorne Farm and O'Halloran Hill Recreation Park
