Att: Redistribution Committee for Victoria

Re: Comment on Suggestions

It is great to see so many independent suggestions but a number of them are challenging to assess as they only take in to account some boundaries, not all. S62 is a well-considered holistic submission that appears to effectively respond to the factors to comply with under the electoral act.

Living in the disjointed electorate of Melbourne Ports, I am reluctant to support suggestions made by political parties as the exercise should be impartial.

As explored in other submissions though, I support changing the names of Batman and McMillan and ensuring similar controversy is avoided in the naming of the three electorates that would then arise.

Kind regards,

James Duncan
