To the Redistribution Committee:

While I had hoped to offer some detailed comments on the 67 excellent suggestions made in relation to the Redistribution of Victoria, time constraints have limited me to a very minor clarification regarding my own suggestion (S67). The suggestion was published with a front sheet containing information from the AEC online form used to submit it. Due to a combination of Google auto-fill and inattention on my part, that information appears to have erroneously included in the "Organisation" field, the name of a private company with which I am associated. For clarity, the suggestion was intended to be on behalf of myself only.

I wish the Committee well in their deliberations and look forward to seeing their proposal. I am happy to field any queries regarding my own suggestion.

Regards

Dean Ashley
