I wish to lodge an objection to the redistribution of approximately half the electorate of Jagajaga to the Menzies division.

My ground for the objection is that the rural and semi-rural areas of Jagajaga and the more heavily populated area of Eltham township are a completely different demographic to the mainly urban areas of Menzies.

My husband and I have lived in Eltham for more than fifty years. Originally we were in the Menzies electorate.

Our part of Eltham was redistributed to Jagajaga many years ago and since then we have been more than content with our representation in Parliament of the very hard working members here.

We object strongly to being placed in a position where, due to the nature of Menzies electorate, our votes are worthless.

I hope that our objections will be duly noted.
