Victorian Electoral
Commission :

To whom it may concern

Apr 21 '18

Dear Sir,

Reading the proposed decision
to expand the Mallee electorate.

Apparently it is said Mallee electorate
would be 6,635 voters now by Aug 2019
by requirements

Mallee electorate is already more
than a $\frac{1}{3}$ of the state, & for our M.P.
to effectively cover such a huge area
he flies a plane at his own expense.

With a proposed new change, how
would it be possible to cater for all the
people's needs & to effectively represent
them in Parliament?

M.P.s are only human in what they
are able to do.

Besides this the population is not
increasing, whereas Melbourne is ex-
ploding with growth, straining under
the burden, & finding it difficult to
provide the people's needs

There is plenty of space to bring
people into our Mallee electorate,
make our towns grow & encourage growth
in the country, opening up opportunities
for new businesses, instead of towns
dying, bringing new life to our area

Use a simple plan to address
the situation, → it won't
become complicated.

Sincerely

AEG VIC SO 01 MAY 2018
