May 4, 2018

Dear Madam/Sir,

I am writing to object to the inclusion of the suburb of Travancore in the federal seat of Maribyrnong. I object as I believe the proposed change will result in a failure to adequately represent the interests of Travancore at a federal level. As an inner city suburb, the needs of Travancore residents more closely align with those of other inner city suburbs such as Parkville and Richmond than they do with suburbs in Maribyrnong. For example, as an inner city we are experiencing increased traffic from commuters coming into the city from outer Melbourne suburbs. Proposed solutions in the past have included the construction of the East West link which would have adversely impacted our suburb through the loss of park amenity and further increased traffic. These were issues of concern to other inner city suburbs such as Parkville. We also have different infrastructure and services needs than other suburbs in Maribyrnong due to the different population density.

Kind regards,

Penny Analytis
