## Comment 2020-21 Western Australian Redistribution

To whom it may concern,

I'd like to comment on the 2020-21 Western Australian Redistribution of seats, in particular, the seat for Cowan.

I am in support of retaining the seat of Cowan and against gerrymandering.

I have never been more happy with our federal member than me and my family are, with Anne Aly. She has done more for the people in Cowan, Western Australia, and Australia than any other MP I've had experienced. The most qualified to understand local and international terrorism, and average Australians trying to support their family on low income.

To lose the seat of Cowan and Anne Aly as our federal representative would be a detriment to Australian politics and a horrible outcome to the people of Cowan and Western Australia, as we would lose another credible voice for WA.

Please reconsider some other electorate which has not performed so well or diligently.

Regards

Shane Gourlay
