I support the arguments put forward by Kylea Tink MHR in Objection 686 to the proposed Federal Distribution of Federal electorates in New South Wales. I believe that this Objection lays out a much superior alternative framed around the merging of the Divisions of Berowra and Bradfield. This proposal better recognises questions of community of interest on the Lower North Shore, cemented by the North Sydney/Chatswood axis. At the same time it preserves the connection between the Upper North Shore community and recognises that there is less commonality between either of these areas and the residents who identify with Gladesville, Ryde etc.
