Dear Redistribution Committee for New South Wales.

Regarding planned alterations to the electorates of Northern Sydney, resulting in the retirement of a full Division i.e. North Sydney.

I write to record my opposition/ objection to the current proposal, I note that its implementation would stretch the workload on the Warringah representative for now and into the future, at a time when the Federal Government is cutting staffing funds.

For the local member to familiarize with the officers, senior staff and the plethora unique problems and needs **of two local councils** is demanding, to then **add a third** should not be done lightly.

The growth potential of Nth Sydney and Warringah is substantial and subject to strong external expectations as mentioned in my earlier submission.

I therefore request that the Kylea Tink suggestion involving Bradfield and Berowra be further investigated or postpone any decision till the results of the National Housing Accord are known.

Thanking the Committee for their learned consideration.

Stan Buckman
