## Tina Jackson Comments on Objections

### Objection #671

I support Zali Steggall's objections and that the Warringah and North Sydney electorates should be retained. Zali's proposed solution to abolish an outer metropolitan division is a better solution. It is crucial to keep inner metropolitan electorates with strong community of interest together.

### Objection #618

I support the arguments in Kirsty Gold's submission outlining why Warringah and North Sydney should remain on the basis of the extraordinary level of civic and democratic participation in these electorates

### Objection #686

I support Kylea Tink's objections to the abolition of North Sydney on the basis of the electorate's economic community of interest, social and civic community of interest, community identity, the civic and democratic engagement that led to the election of a community independent MP. Moreover, the proposal is short-sighted in light of expected population growth.
