## Suggestion for renaming electoral boundaries in NSW after 2023 redistribution – Using Traditional Place Names or Language Regions

Given the recent referendum result, and that Australia Post (another federal body (GBE) operating from the effects of S51(v) of the Australian Constitution across place names and regions) has recently decided to include traditional names on our mail with postcodes, would there be scope to *replace or include* all electoral names in NSW *with traditional or Country titles* related to the new/redistributed regions? I make this suggestion as another appropriate step in our ongoing journey to reconciliation.
