Objection to Proposed Boundaries for Epping

1. Splitting the suburb of Epping is a most divisive plan. In my particular case, members of my family (myself, two daughters and their husbands and children, and my elderly mother) will no longer be in the same electorate. My daughters were brought up in Epping, in the Bennelong electorate, and we have close alliances and allegiances in Bennelong.
2. Crossing the M2 is a dreadful idea. This really is splitting a suburb and electorate unnecessarily.
3. This is a most unnecessary move - socially and geographically divisive.
4. Our local member, Jerome Laxale, is a very active and effective member of our community. He keeps us informed regularly, and works hard for the electorate. To lose his voice would be devastating for our community.

Please do not divide Epping or Bennelong!
