1 page

Objection for the 2023-2024 New South Wales federal redistribution

I object to AEC's proposal to abolish our federal seat of North Sydney. There is a real sense of community to have North Sydney federal seat. The proposal means one seat needs to look after more than 20 suburbs and how do you expect a person can visit more than 20 suburbs in just one working week to attend all the schools and community events?

My son was busking during a community event in Artarmon and our North Sydney MP came to watch the kids busking for over 2 hours on a Sat. Now with the new proposal how many schools does the MP need to visit? It is an impossible workload and small suburbs like Artarmon will be forgotten by the new MP even our school has over 1200 kids!

Your proposal is insane and lower North Shore is a fast growing population with hundreds of new apartments being built and more to come as people are able to afford housing in the area.
