

**THE FEDERAL
REDISTRIBUTION
NEW SOUTH WALES**

Objection 207

Danielle Haan

1 page

Dear AEC,

My family and I are objecting to the abolishment of the Federal seat of North Sydney for the following reasons:

1. We live, work and go to school in this area and since moving here 10years ago, we have put efforts into integrating and contributing to this community. We love North Sydney and all that it has to offer from the beautiful natural spots like Balls Head and Flat Rock Gully to the fantastic diversity of ethnic backgrounds of the people that live in our area and all the richness that they bring when we come together.
2. I believe that North Sydney is an area that is significant in it's own right and during the last Federal election there was a groundswell of support for a change to reflect our community's views instead of those of the main political parties. I would be most upset if we lost the chance to come together as a community of North Sydney and if our community was split across several surrounding seats.
3. The change that we achieved in the last federal election was inspirational to so many young and old alike in our community and to have that stripped after just one term feels unjust. So much energy was given by so many people to educate our community about the benefits of having an Independent MP representing our community and we need the chance to have more time to for our MP to continue the good work she has begun.

Please listen to our community and our wishes to remain together with a seat in parliament to represent us.

Sincerely
Danielle Haan
