Objection 422

I have a large objection to Berowra crossing the M2 into the Epping Town Centre – this is because the people of Epping have much less to do with the region north of the M2, they have different problems to us and thus solutions will need to be different. Furthermore, there is a strong community of interest between Epping, Eastwood and Marsfield – this is both socially, community-based, school based and culturally based.

Also I believe that splitting the suburb of Epping across 2 federal electorates, given the years of work to keep single-seat representation in the Epping Town Centre across the 3 levels of Government is offensive to the work of people in Epping and creates even more problems to an already congested and conflicted region. We should be working to bring it together as a major hub, not working towards complicating things and funding and responsibility.
