Proposed Federal Redistribution for NSW

Alternate proposal

As a long time resident of the Hills Shire Electorate in Nelson I would like to make a suggestion regarding the Proposed Federal Redistribution for NSW

As Nelson is the original and oldest section of the Shire, I feel that a better way to redistribute the population density would be to make the new boundary either:-

(a) Turning Right from Windsor Road on to Annangrove Road, left at Edwards Road then Right on Old Pitt Town Road to Boundary Road.

This would capture most of the high density building in the Box Hill precinct and leave the Low density, mostly acreage properties in either the Berowra or Mitchell electorates.

Another alternative would be

(b) Turning Right from Windsor Road on to Nelson Road, then left on Old Pitt Town Road to Boundary Road.

If you would like to discuss this further, please contact me below
