I noted an error in my revised redistribution that was not deleted. "La Trobe gains 6760 electors and 7866 projected electors from SA2 212031559 from Holt. This increases La Trobe to 116707 electors and 128254 projected electors and reduces Holt to 107095 electors and 127222 projected electors." This comment was from the prior unrevised edition and should have been deleted. Please disregard this comment.
