I am writing to provide commentary on the proposed redistribution made by the Victorian redistribution committee.

Firstly, I commend the redistribution committee on maintaining the proposed electorate of Casey around the Yarra Ranges Council and retain the Council within its boundaries.

Private Hire:

MODERN MERCEDES BENZ
SEAT BELT COACHES
ARE AVAILABLE FOR
PRIVATE CHARTER
11, 28 - 57 PASSENGER
AIR CONDITIONED
COACHES

It is my view as the General Manager of a local bus service provider, that the decision by the redistribution committee to maintain the proposed Casey electorate within the Yarra Ranges and Yarra Valley is the correct decision.

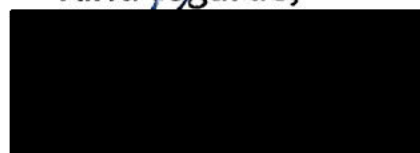

As I noted in my comment on suggestions (CS50), *"Residents may live in one town, but work, play sport, shop and socialise in the various surrounding townships, creating the community feel that makes Casey such a special place to call home."*

I thank the redistribution committee for considering my contribution (CS50) and keeping our Yarra Ranges community together in the one electorate.

I also commend the redistribution committee on the draft boundaries on including the Warrandyte – Wonga Park area and the St Andrews – Pantan Hill area within the Casey electorate. As you highlight in your report, this transfer *'assists the proposed Division of Casey to meet the numerical requirements of the Electoral Act'* and in my opinion makes sense and brings communities of interest together.

Thank you for taking the time to consider my comments.

Kind regards,

Brad Sanders
