# Newman, Terry - Redistribution TAS - My idea on the proposed Tasmanian redistribution

## Personal details

**First name:** Terry  
**Surname:** Newman  
**Email:** [REDACTED]

## Idea details

**Idea:** Names  
**Details:** Franklin might be renamed Meredith. A male and female Meredith are stand outs and both have ADB biographical entries. They are Charles Meredith and especially Louisa Anne Meredith, who merits taking preference because fewer seats are named after females. ADB links, L A M=<https://adb.anu.edu.au/biography/meredith-louisa-ann-4435> CM=<https://adb.anu.edu.au/biography/meredith-charles-4187>. Hopefully, the more negative link to George Meredith's clashes with Aborigines will not detract from this suggestion.
