Idea details

Idea: Boundaries
Details: Gelnorchy is an urban area and does not belong in a predominantly rural electorate like Lyons. It makes the most sense for a city (or most of a city) to be represented by a person (at a federal level) that can advocate for city dwellers needs. The proposal would have greater Hobart split between three different combined rural/city electorates which I think would make it hard for elected members to represent the needs of all those people.
