Dear Committee

Thank you for the opportunity to make suggestions regarding the electoral redistribution of Tasmania. I understand the Federal Division of Clark, which I represent in the Parliament of Australia, is projected to be 10.49 per cent below the enrolment quota by 2030, requiring a significant adjustment of its boundaries.

Upon reflection I have decided not to provide a detailed submission at this time. As the current Federal Member representing the Division, I have an obvious potential conflict of interest and believe it's appropriate to leave proposals for new boundaries to other members of the community.

Yours sincerely

Andrew Wilkie MP
Independent Member for Clark
