**2026 Federal Redistribution Suggestions**

Queensland federal redistribution suggestions, contributed by Chris Brendon Agpasa and the Agpasa family from Wollert, Victoria.

**Suggested comment:**

“We believe that the proposed federal electoral boundaries should make sense for all electorates across the Gold Coast, including Fadden, Forde, McPherson, Moncrieff and Wright. The boundaries should take into account all Gold Coast suburbs and extend beyond the Gold Coast to include Logan, Scenic Rim, Ipswich, the Queensland–New South Wales border and the Tweed region. This would help support connected communities and benefit the region’s successful tourism industry, attracting both domestic and international visitors.”

Thank you for considering our suggested comment.
