Submission details

Submission:	Boundaries
Details:	I am a resident of Yarrabilba and am writing to express my support for Suggestion 20, submitted by Susan Garai, regarding the boundaries of the Division of Wright. As a resident of Yarrabilba, I feel a much stronger connection to the communities within Logan City than I do to the more regional communities currently included in the Division of Wright. The character of our community and our everyday connections are much more closely aligned with Logan City and its surrounding communities. Public transport is one example of this

connection. Public transport links serving Yarrabilba and Logan Village head towards Loganlea, reinforcing the connection between our communities and the wider Logan area. These transport links are relevant to how residents access services, connect with other communities and travel for everyday needs.

Yarrabilba is a growing residential community whose needs and priorities are closely connected to those of other communities in the Logan area. These include shared needs relating to housing growth, roads, public transport, schools, healthcare and other essential services.

I do not feel that Yarrabilba has the same community connection with the more regional areas around Beaudesert, Boonah and the Lockyer Valley. While these communities have their own important interests and needs, I believe Yarrabilba's community of interest is more closely aligned with Logan City.

For these reasons, I support the proposal in Suggestion 20 to place Yarrabilba within a federal electoral division that includes communities in Logan City, rather than grouping it with more distant regional communities.

I respectfully ask the Redistribution Committee to take into account the lived experiences of residents, our everyday transport connections and the community relationships that shape our lives when considering the boundaries of the Division

of Wright.

Thank you for considering my submission.
