

Submission CS71

Aussies Elect

The Supreme Redistribution

Comment on the suggestions — 2025–26 redistribution of Queensland into federal electoral divisions

30 October 2026

A complete 30-division map, built SA1 by SA1. Exactly what moves is listed in the appendix at the end of this document.

Summary

The suggestions lodged in round one agree on the problems: Logan carved three ways, Townsville and Mackay handed to the wrong seats, southern Cairns sitting in Kennedy, Rockhampton split from itself, the Fraser Coast divided, Petrie and Rankin spilling across council lines. Most then fix one or two of these and leave the rest. The Supreme Redistribution fixes all of them at once, statewide, using a single rule: keep cities, councils and real communities together, and only cross a council line when the numbers force it or a genuine community connection justifies it.

What this map delivers:

- **Logan:** Logan City gets two divisions of its own. Forde and Rankin both lie wholly inside Logan and between them hold all but 689 of its electors.
- **Council lines:** Petrie and Dickson lie wholly in Moreton Bay; Blair lies in Ipswich (bar one boundary-straddling SA1). Brisbane City drops from 11 divisions to 7, and six of those lie wholly inside Brisbane City.
- **Regional cities:** Cairns, Mackay (bar 834 electors), Rockhampton, Gladstone and the Fraser Coast are each in a single division, and urban Townsville (bar the Northern Beaches) is in Herbert.
- **Central coast:** Gladstone and Bundaberg form one coastal division (Hinkler); Hervey Bay and Maryborough are reunited (Flynn).
- **Far North:** Cape York and the Torres Strait join Kennedy, so Leichhardt becomes a Cairns division.
- **South-east:** Lockyer Valley stays whole and joins Toowoomba in Groom; coastal Noosa joins Fairfax.
- **Numbers:** all 30 divisions are within ±10% of current enrolment. 3,301 of 12,616 SA1 records change division, covering 1,037,599 projected electors (26.1%).

The maps in this comment are real screenshots of the proposal loaded into the public mapping tool at auredistribution.com (fed_qld_2026), shown existing-versus-proposed with council (LGA) boundaries overlaid. Division colours are the tool's own, so a division has the same colour in both views.

Principles

1. Communities of interest first: a city, a suburb or a valley should be in one division, not three.

2. Council boundaries are the best available proxy for community, and they are what voters already recognise. Big councils (Brisbane, Gold Coast, Moreton Bay, Sunshine Coast, Logan) must be divided, but should be divided into divisions that sit inside them; smaller councils should be kept whole.

3. Divisions should follow the roads people actually use: the Warrego Highway, the Bruce Highway, the Capricorn Highway.

4. Within those rules, enrolment is kept within the legal limits. All 30 divisions are inside the ±10% current-enrolment limit (quota 127,259). On projected enrolment (quota 132,526), 10 divisions are within ±3.5%, the same number as the existing boundaries (10), which also have five divisions already outside ±10% on current enrolment. The Act asks for ±3.5% "as far as practicable"; where this map goes beyond it, the priority has been keeping cities, councils and communities together. If the Committee needs to tighten individual numbers, the framework below lets it do so by moving SA1s along existing division edges, without reopening the structure.

Division names are not important to me. I have kept the existing names only so the map can be read against the existing boundaries; the Committee should rename freely (for example, Flynn is now a Fraser Coast division).

Statewide view

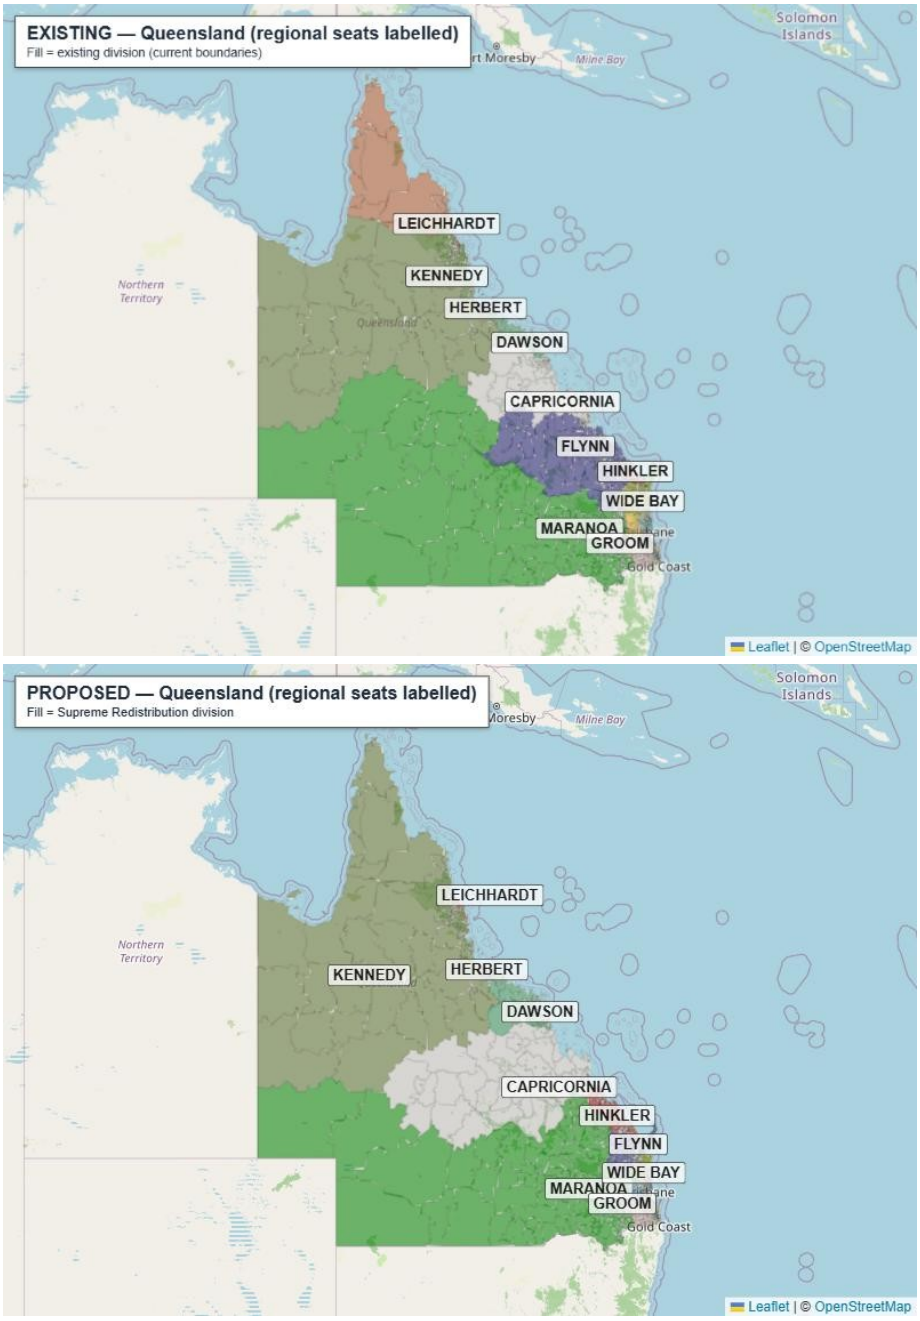

Figure 1. Existing (top) and proposed (bottom) divisions statewide. Regional seats labelled; south-east Queensland is shown in detail later.

1. Logan City: two divisions, Forde and Rankin

Logan has almost exactly two quotas of electors, yet under the existing boundaries it is shared by three divisions. Forde runs across into the Gold Coast (33,446 electors), Rankin runs into Brisbane City (28,839), and the whole western growth corridor (54,530 Logan electors) sits in Wright, which is otherwise a Scenic Rim and Lockyer Valley seat.

In this map Logan has two divisions, and they are entirely its own:

- **Forde —** Logan's western and southern growth corridor: Browns Plains, Crestmead, Park Ridge, Greenbank, Flagstone, Jimboomba, Logan Village and Yarrabilba. 128,202 electors, all in Logan City.
- **Rankin —** Logan's established north and east: Springwood, Logan Central, Slacks Creek, Kingston, Loganholme, Shailer Park, Tanah Merah, Beenleigh and Eagleby. 120,615 electors, all in Logan City.

The only Logan electors outside Forde and Rankin are 689 in two SA1s that straddle the Logan–Gold Coast and Logan–Scenic Rim boundaries at Wolffdene–Bahrs Scrub and Jimboomba–Glenlogan. They stay in Wright deliberately: they keep Wright joined up between its Scenic Rim and Gold Coast hinterland sections. Brisbane's southern suburbs return to Moreton, and Forde no longer crosses into the Gold Coast.

Others have seen the same problem. S51 asks simply: "Make Rankin exclusively a Logan City seat". S20 says Logan Village and Yarrabilba "have more in common with areas of Logan City than with the Beaudesert Shire area". Mr Dixon (S53) moves "all of the sections of the Logan LGA currently in the Wright electorate" into Forde and all of Rankin's Brisbane City territory into Moreton. Labor (S60) says Logan would be "predominantly represented by two Logan-based divisions", but it still sends Carbrook to Bowman. The Greens (S63), Dr Mulcair (S47) and Mr McSweeney (S43) all leave Rankin crossing into Brisbane City, and Dr Mulcair keeps southern Logan in Wright. Mr Richardson (S52) removes Rankin's Brisbane City territory but then adds a third division inside Logan. The LNP (S62) keeps Forde as "the Logan and Gold Coast connector division", keeps Rankin's "outer southern Brisbane suburbs", and extends Bonner into Rochedale South, which, it says, "crosses the boundary between Brisbane City and Logan City". That leaves Logan in four divisions. Logan is one of the fastest-growing cities in the country, and its two members should be Logan members.

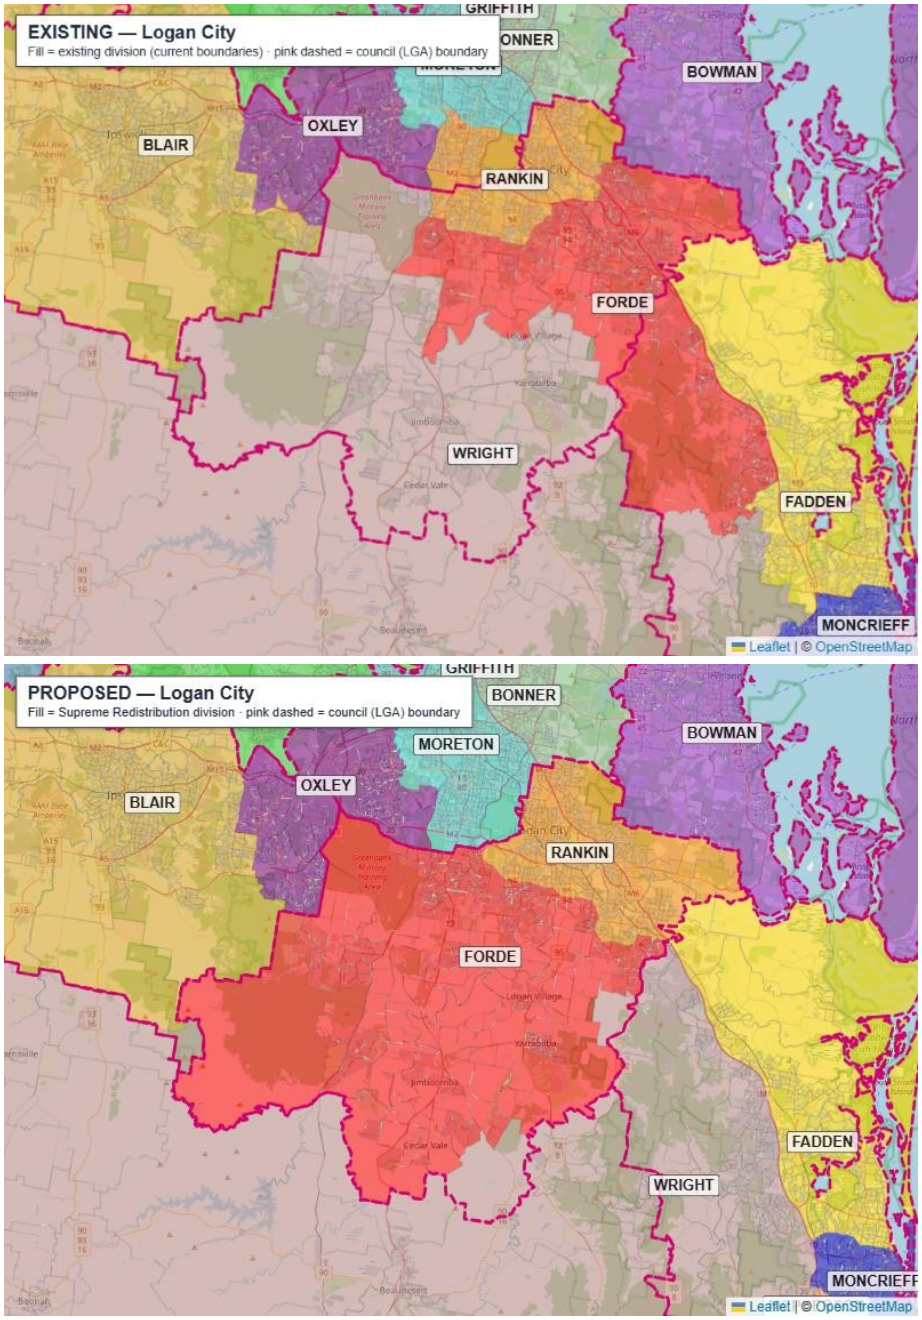

Figure 2. Logan City. Existing: Logan split between Forde, Rankin and Wright, with Rankin crossing into Brisbane and Forde into the Gold Coast. Proposed: Forde and Rankin fill the Logan council area.

2. Brisbane City and Moreton Bay

Today, Petrie has 35,476 electors in Brisbane City (including Bracken Ridge, Bald Hills, Carseldine, Bridgeman Downs, Aspley and Taigum–Fitzgibbon) and Dickson has another 4,537. In this map the line between Brisbane City and the City of Moreton Bay becomes a division boundary. S56 puts it bluntly: Petrie's current boundaries are "bizarre", crossing the North Pine River to take in Brisbane City suburbs "that have no real connection to the region". Mr Saraswat (S10), PJ (S28) and Mr Dixon (S53) also move these northern Brisbane suburbs out of Petrie.

- **Petrie —** wholly in Moreton Bay: the Redcliffe peninsula, North Lakes, Mango Hill, Deception Bay, Burpengary East, Beachmere–Sandstone Point and Bribie Island. This is the bayside coast as one division.
- **Dickson —** wholly in Moreton Bay: the Hills District, Albany Creek, Eatons Hill, Strathpine, Bray Park, Lawnton, Kallangur, Petrie and Murrumba Downs.

- **Longman —** Caboolture, Morayfield, Narangba, Elimbah and Woodford, plus the Samford and Dayboro valleys, extending west across the D'Aguilar Range into Somerset (see section 3). Longman no longer reaches into Sunshine Coast council: it is Moreton Bay plus Somerset.
- **Lilley, Brisbane, Ryan —** the Brisbane City suburbs north of the existing line return to Lilley (Bracken Ridge, Bald Hills, Carseldine, Bridgeman Downs). Ryan takes Ashgrove, Bardon, Paddington–Milton, Red Hill, Alderley, Newmarket and Karana Downs, so the inner-western suburbs are together in Ryan.
- **Moreton —** Calamvale, Stretton, Parkinson, Drewvale and Algester return from Rankin to the Brisbane City division they belong with.

Result: Brisbane City is shared by 7 divisions instead of 11. Ryan, Lilley, Moreton, Brisbane, Griffith and Bonner each lie wholly within Brisbane City, and Oxley is the only division shared with Ipswich. Moreton Bay is shared by three divisions (Petrie, Dickson, Longman), plus the single Woodford road-link SA1 in Wide Bay explained in section 5, and none of them crosses into Brisbane. The LNP (S62) also makes Petrie a division "wholly within the City of Moreton Bay"; this map does the same and also takes Dickson out of Brisbane City.

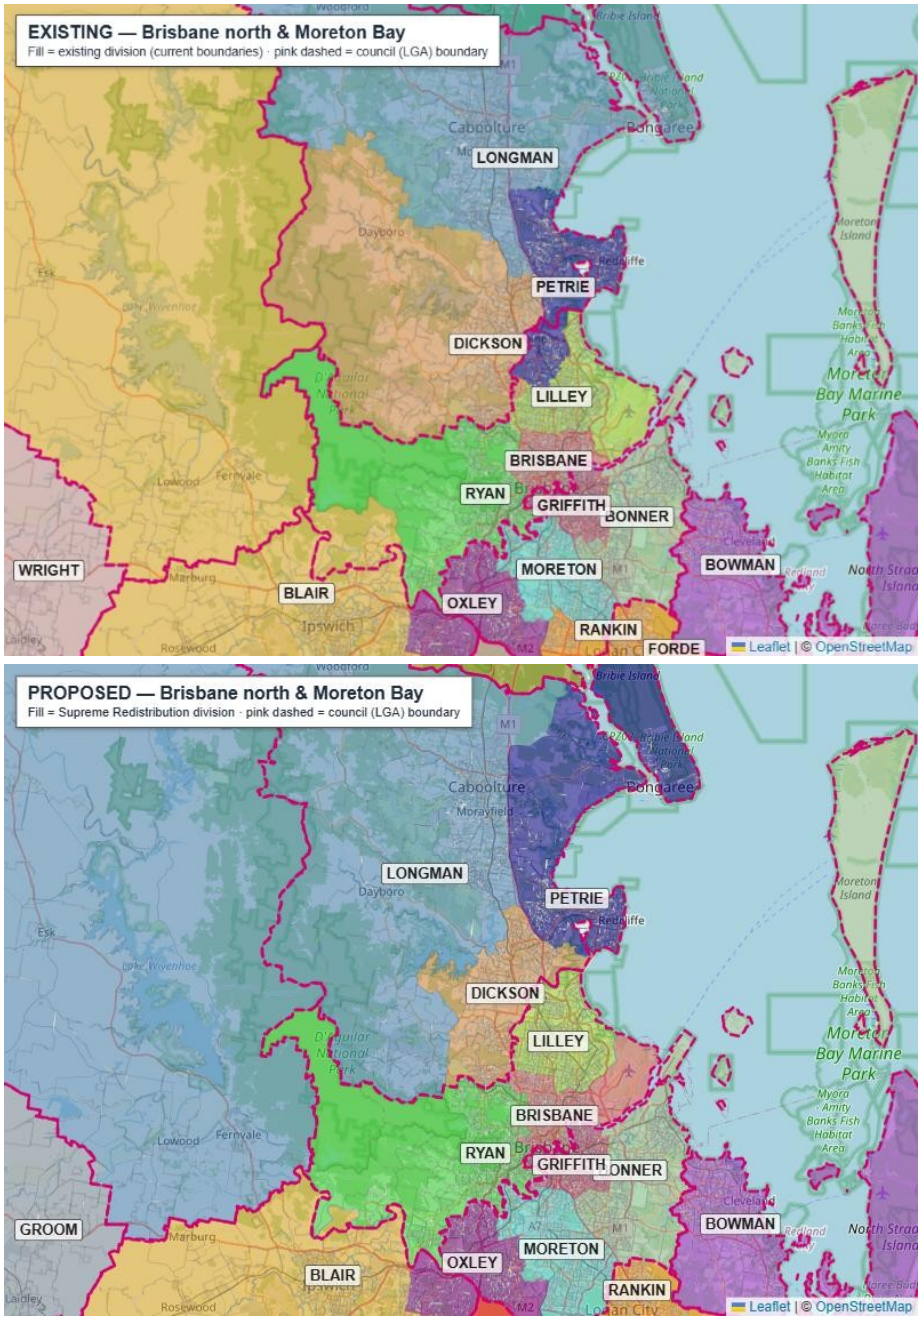

Figure 3. Brisbane north and Moreton Bay. Existing: Petrie and Dickson cross the Brisbane City line. Proposed: the Brisbane–Moreton Bay council boundary is a division boundary.

3. Ipswich, Lockyer Valley, Toowoomba and Somerset

Blair is currently Ipswich plus all of Somerset plus a fringe of other councils. In this map Blair is the City of Ipswich and nothing else, apart from one SA1 at Chuwar and Pine Mountain (239 electors) that straddles the Brisbane River, and with it the Ipswich–Brisbane boundary. It is a single unit in the SA1 data, so I cannot split it, but the Committee can split it at the river when drawing the final boundary. This is the same outcome Labor asks for (S60: "Blair would comprise only the City of Ipswich"). Eastern Ipswich (Springfield, Springfield Lakes, Redbank, Goodna) is in Oxley, the only division that genuinely spans Ipswich and Brisbane. Springfield Lakes is no longer cut off from Springfield. The LNP (S62) makes the same move ("This unites Springfield Lakes with Springfield in Oxley"), and S26 and S57 also rebalance Blair and Oxley around Springfield.

Lockyer Valley is kept whole and placed in Groom with Toowoomba. Lockyer Valley Regional Council (S44) asks above all that the entire Lockyer Valley be kept "within a single federal electorate"; this map does exactly that. The Council also supports keeping its alignment with the Scenic Rim communities in Wright, with Somerset as an alternative. Neither option is Toowoomba, but the Council's central request, one division for the whole valley, is met. I prefer Toowoomba for three reasons:

- **Roads and services:** The Warrego Highway runs from Gatton and Withcott straight up the range to Toowoomba. Lockyer residents shop, work, study and see specialists in Toowoomba. There is no comparable link to Beaudesert or Boonah, which sit across the Little Liverpool Range.
- **Numbers:** Lockyer and Somerset together are well short of a quota. Making up the numbers means taking western Ipswich, which breaks Ipswich up again, or adding a long inland chain of unrelated councils.
- **Economy:** the Lockyer is the Toowoomba region's food bowl, and the two share agricultural and water-security interests.

The LNP (S62) proposes the same move: Groom "gains the whole of the Lockyer Valley Regional Council area", because "the Warrego Highway binds the two together". So does Mr Waddell (S37: "transfers the entire Lockyer Valley LGA from Wright to Groom"), and Mr Baker (S61) moves the majority of the valley to Groom. Groom becomes Toowoomba city and the Lockyer Valley, and Toowoomba's outer rural districts (Pittsworth, Millmerran, Clifton, Crows Nest, Jondaryan) join their Darling Downs neighbours in Maranoa, much as the LNP (S62) also proposes.

Somerset moves almost whole from Blair to Longman: Esk, Toogoolawah, Fernvale and Lowood link to Moreton Bay through Kilcoy and the D'Aguilar Highway, Woodford and Caboolture. Only 672 electors on the outer edge go elsewhere.

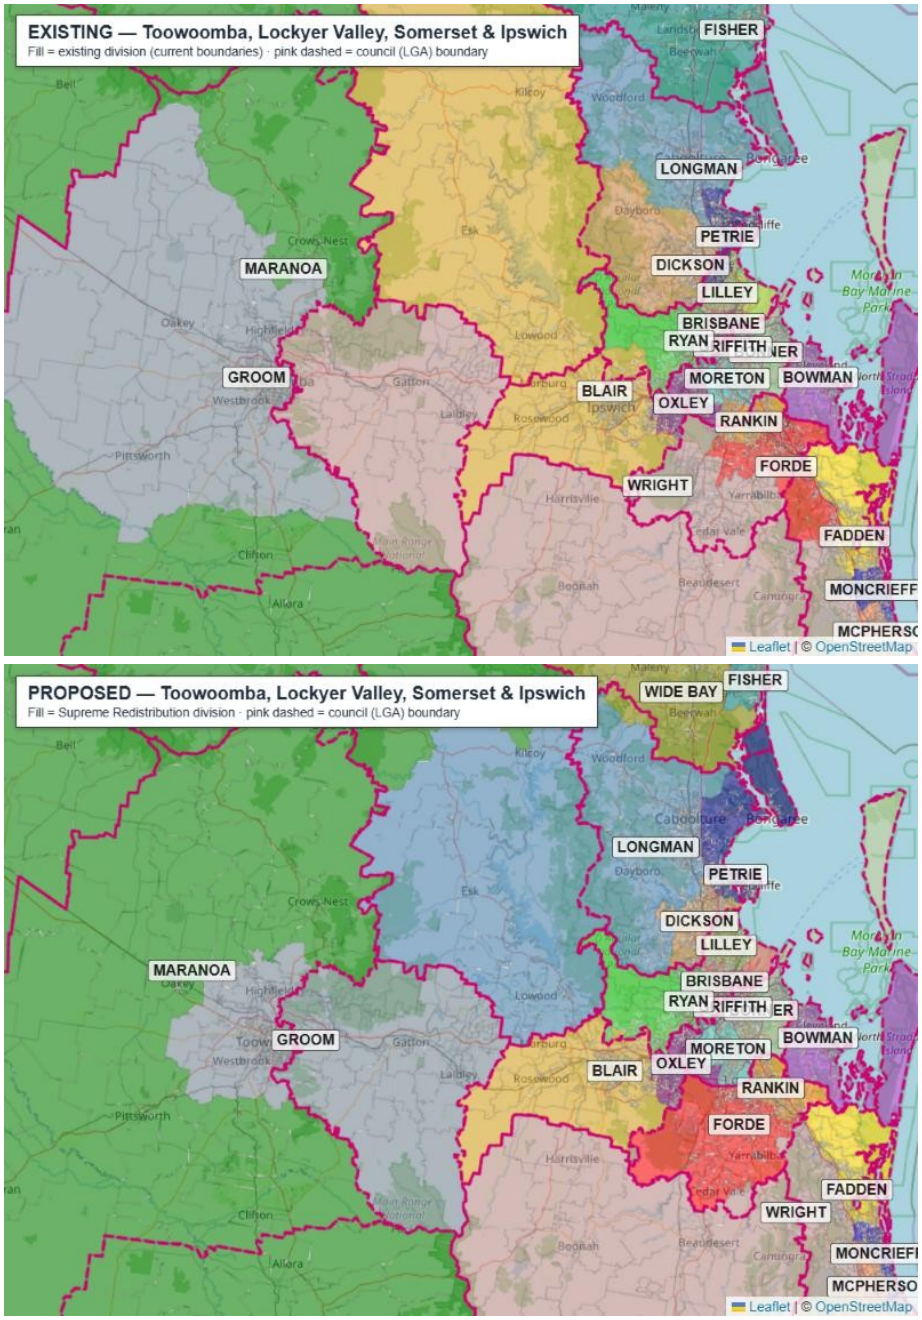

Figure 4. Toowoomba, Lockyer Valley, Somerset and Ipswich. Proposed: Blair = Ipswich; Lockyer Valley whole in Groom with Toowoomba; Somerset with Longman.

4. Gold Coast and Wright

With Forde confined to Logan, the Gold Coast is shared by 4 divisions instead of 5. Fadden, Moncrieff and McPherson remain wholly within the Gold Coast. Wright gives up Logan and the Lockyer Valley and becomes the Scenic Rim plus the Gold Coast's hinterland and western growth corridor: Upper Coomera, Ormeau (West)–Yatala, Willow Vale, Oxenford–Maudsland, Pacific Pines–Gaven, Highland Park, Nerang–Mount Nathan, Mudgeeraba–Bonogin, Worongary and Guanaba–Springbrook. These are the communities along the foot of the ranges, connected to Beaudesert and Canungra by the Beaudesert–Nerang Road and the Coomera Valley. Fadden keeps the coastal northern Gold Coast (Coomera, Pimpama, Helensvale, Hope Island, Runaway Bay, Labrador).

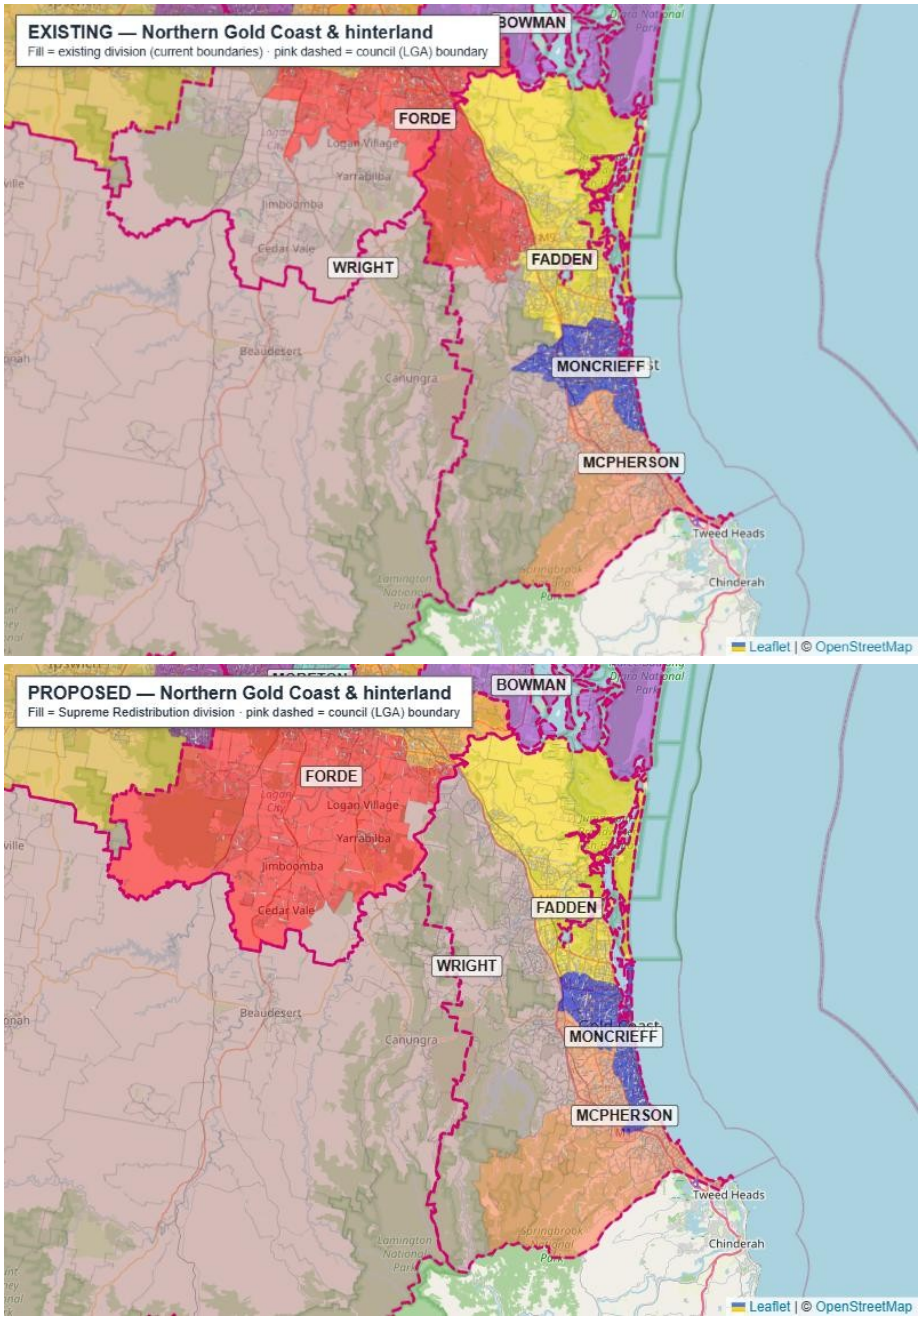

Figure 5. Northern Gold Coast and hinterland. Proposed: Forde leaves the Gold Coast; Wright combines the Scenic Rim with the Gold Coast hinterland.

5. Sunshine Coast and Noosa

Noosa Heads, Noosaville, Tewantin, Sunshine Beach and Peregian are coastal Sunshine Coast communities. They share a coastline, a tourism economy and Sunshine Coast services with Coolum and Maroochydore, not with Gympie. S12, a Noosa resident, asks that the Noosa council area "be redistributed from the Federal Wide Bay electorate into Fairfax". Mr McSweeney (S43) and Mr Richardson (S52) also put Noosa in Fairfax. Labor (S60) keeps Wide Bay "centred on Gympie, Noosa and the hinterland region". The LNP (S62), Dr Mulcair (S47) and the Greens (S63) also leave Noosa in Wide Bay; the LNP even extends Wide Bay into Peregian Springs and Eumundi.

In this map the Sunshine Coast is organised by coast and hinterland:

- **Fairfax —** the coastal strip from Noosa Heads and Tewantin south through Peregian, Coolum, Marcoola and Bli Bli to Maroochydore and Buderim North.
- **Fisher —** the southern coast, wholly within Sunshine Coast council.
- **Wide Bay —** Gympie and the hinterland: the western Noosa hinterland, Eumundi–Yandina, Nambour, Palmwoods, the Blackall Range, Landsborough, Beerwah, Glass House and

Beerburrum, down to the Moreton Bay council line. These towns share the Bruce Highway and the North Coast rail line, and look to Nambour and Gympie.

Beerburrum is honestly a coin flip. The LNP (S62) and the Greens (S63) move Beerburrum and Glass House Mountains south to Longman together; the Greens describe it as "Maintaining the connection between Beerburrum and Glasshouse". Mr Close (S14) splits them at the North Coast rail line, keeping Beerburrum and the eastern parts with the Sunshine Coast in Fisher. The common ground is that Beerburrum belongs with Glass House Mountains, so in this map it goes with Glass House into Wide Bay. That also follows the Sunshine Coast–Moreton Bay council line. Either way works, and the choice does not affect the rest of the map.

One SA1 near Woodford (SA1 31303137115, part A) crosses into Moreton Bay deliberately: it carries Commissioners Flat Road and the Kilcoy–Beerwah Road, which keeps Wide Bay's south-western edge connected by road.

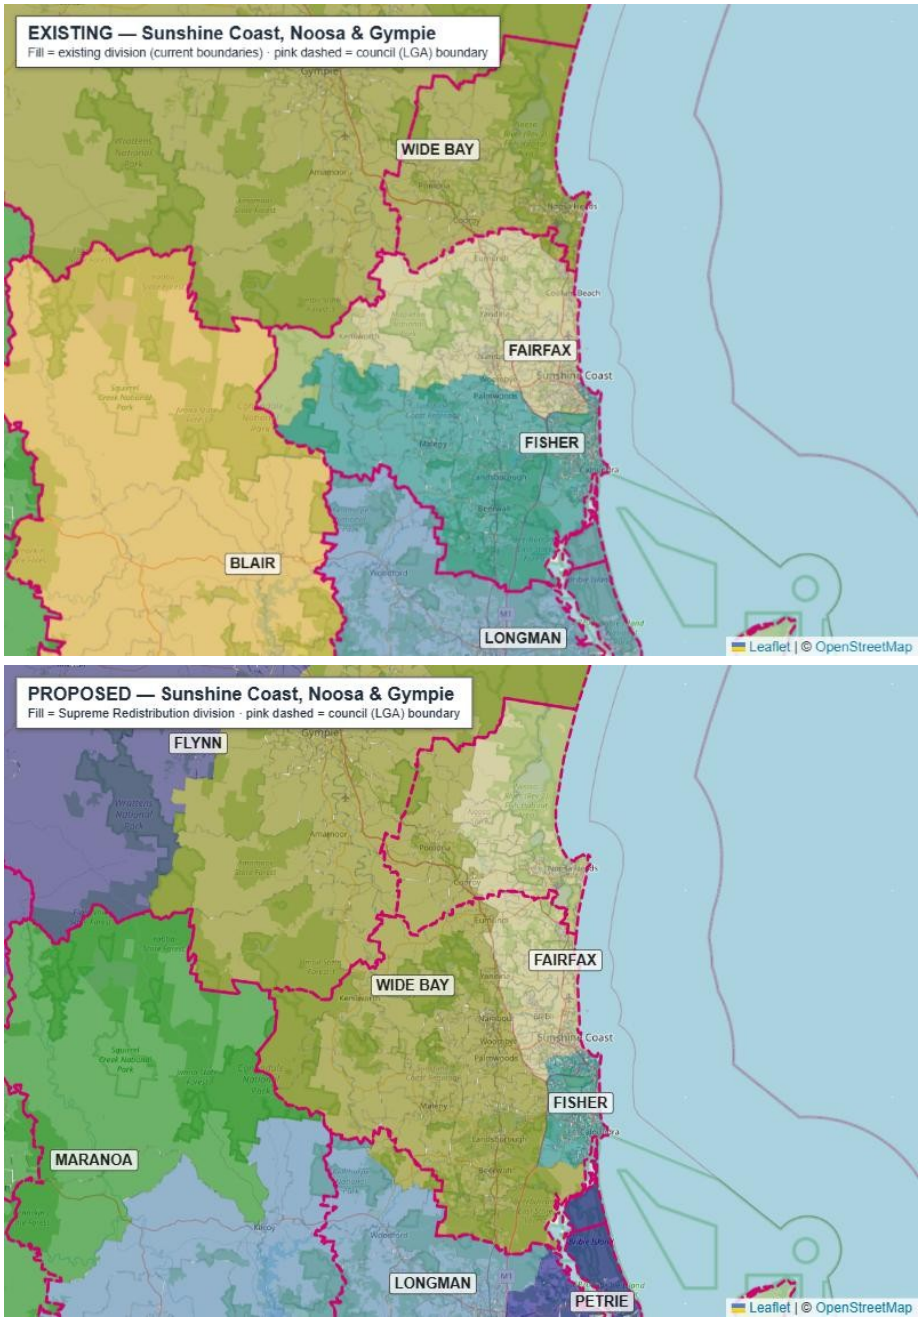

Figure 6. Sunshine Coast, Noosa and Gympie. Proposed: coastal Noosa joins Fairfax; Wide Bay becomes Gympie and the hinterland.

6. Rockhampton, Gladstone, Bundaberg and the Fraser Coast

The existing map splits Rockhampton between Capricornia and Flynn, splits the Fraser Coast between Hinkler and Wide Bay, and makes Gladstone the anchor of a division reaching hundreds of kilometres inland. Each city now has one division:

- **Hinkler —** Gladstone (whole council) and Bundaberg (all but 5,892 rural electors): the two industrial port cities of the Central Queensland coast, linked by the Bruce Highway, with shared port, LNG, sugar and tourism interests. Mr Baker (S61) makes Hinkler "a Bundaberg - Gladstone division". Mr Richardson (S52) puts "Gladstone and Bundaberg in one electorate". Mr McSweeney (S43) draws the same seat, which he calls Flynn.
- **Flynn —** the whole Fraser Coast council area, with Hervey Bay and Maryborough together for the first time in years, plus the Burnett towns that look to them (Gayndah, Mundubbera, Kilkivan, Cherbourg and the Kingaroy hinterland). It keeps the name Flynn only for convenience. Mr Dixon (S53) and Mr Last (S38) also reunite the Fraser Coast.
- **Capricornia —** all of Rockhampton and Livingstone (Yeppoon, Emu Park), Gracemere, the Central Highlands (Emerald), Isaac, Woorabinda, and the Central West towns of Longreach, Barcaldine and Blackall–Tambo, all tied to Rockhampton by the Capricorn Highway and its hospital and services catchment. Mr Weston (S42) also has Capricornia "expand west along the Capricorn Highway".

The LNP (S62) also unites Rockhampton in Capricornia, but keeps Flynn as "a vast division centred on Gladstone" and pairs Bundaberg with Hervey Bay in Hinkler instead of reuniting Hervey Bay with Maryborough. Dr Mulcair (S47) calls the existing pattern "Northward Drift" and argues that regional seats should be "anchored by a major city". S16 asks for every regional city from Gympie to Cairns to have one electorate, with the remote areas in seats like Kennedy and Maranoa. S24 argues that council areas "should be wholly contained within electorates". This map applies that principle to every regional city at once. Banana Shire (Biloela) moves to Maranoa, alongside the South Burnett.

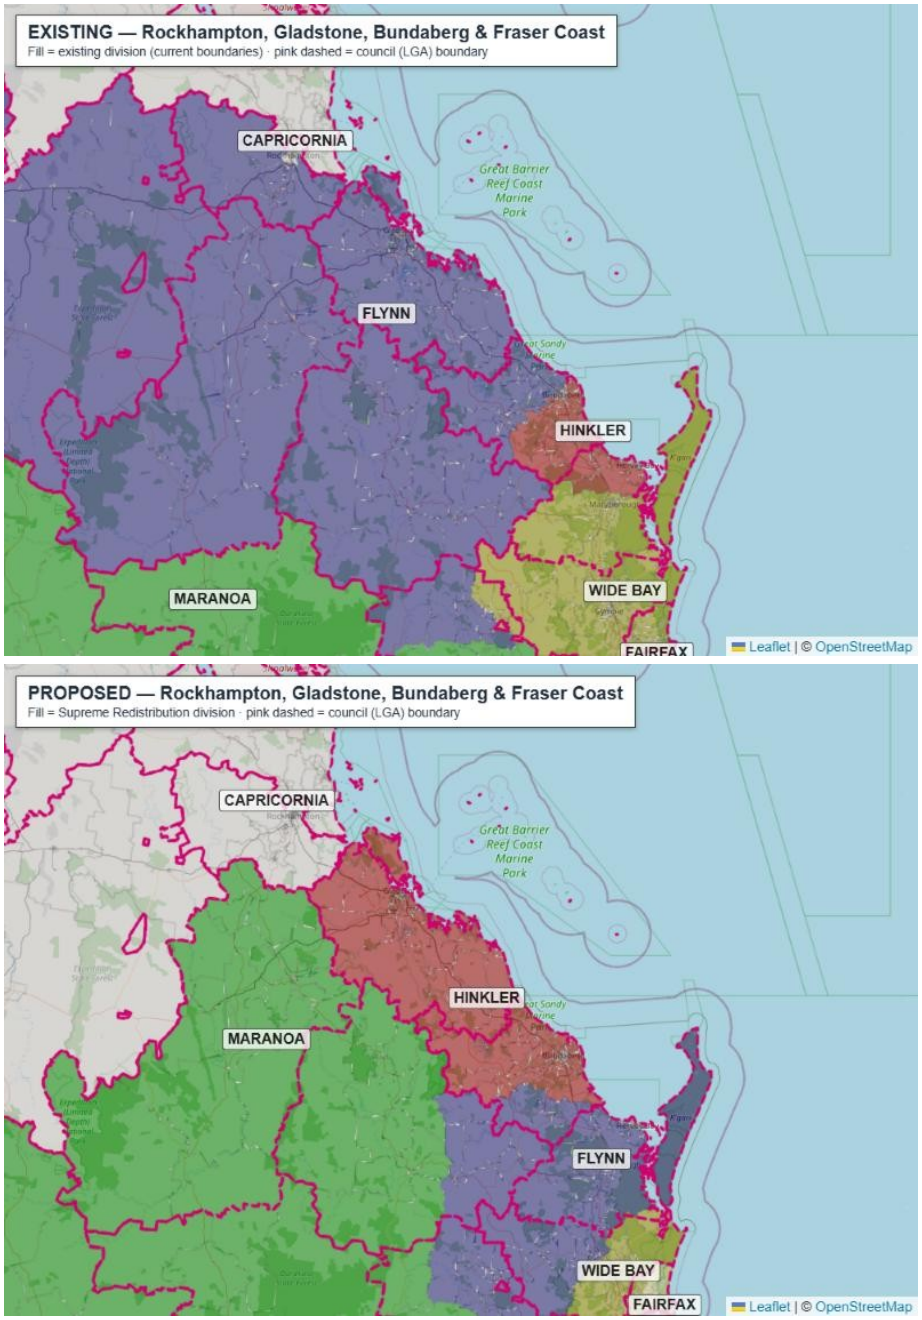

Figure 7. Rockhampton to the Fraser Coast. Proposed: Hinkler = Gladstone + Bundaberg; Flynn = Fraser Coast and Burnett; Capricornia = Rockhampton and the Capricorn Highway corridor.

7. Townsville and Mackay

Southern Townsville (Annandale, Oonoonba, Wulguru, Townsville South) is currently in Dawson, a Mackay division. Residents say so plainly. S5 asks that people "on the southern side of Ross River" return to Herbert because "our sitting member is based in Mackay". S9 writes "We live in Annandale, it is included in the Dawson Electrate [sic]". S15 and S24 make the same point, and the analysts agree: Mr Kamler (S34) would "remove all Townsville City Council suburbs south of Ross River from Dawson", and Mr Weston (S42) says Dawson can "shed its electors in the Townsville urban area to Herbert". The LNP (S62) still wants Dawson to be "the connector division between Mackay and Townsville"; the residents are telling the Committee otherwise. In this map Dawson has no Townsville suburbs at all, and Herbert covers urban Townsville, Magnetic Island and Palm Island. To keep Herbert within the limit, part of the Northern Beaches area (4,208 electors) joins Kennedy, which already holds the rest of Townsville's rural north and west.

Dawson becomes the Mackay division: all of urban Mackay (previously split with Capricornia), the Pioneer Valley, Sarina, the Whitsundays, Collinsville and the Burdekin. Collinsville moves from

Capricornia so that the whole of Whitsunday council is in Dawson, as S24 ("Dawson should gain the rest of Whitsunday LGA") and the LNP (S62) both propose; the LNP notes the Bowen Developmental Road is "the town's principal link to the coast". Mackay, Whitsunday and Burdekin councils are each wholly in Dawson (apart from 834 electors at Mackay's southern edge). PJ (S28) likewise aims at "making Mackay a one-division city".

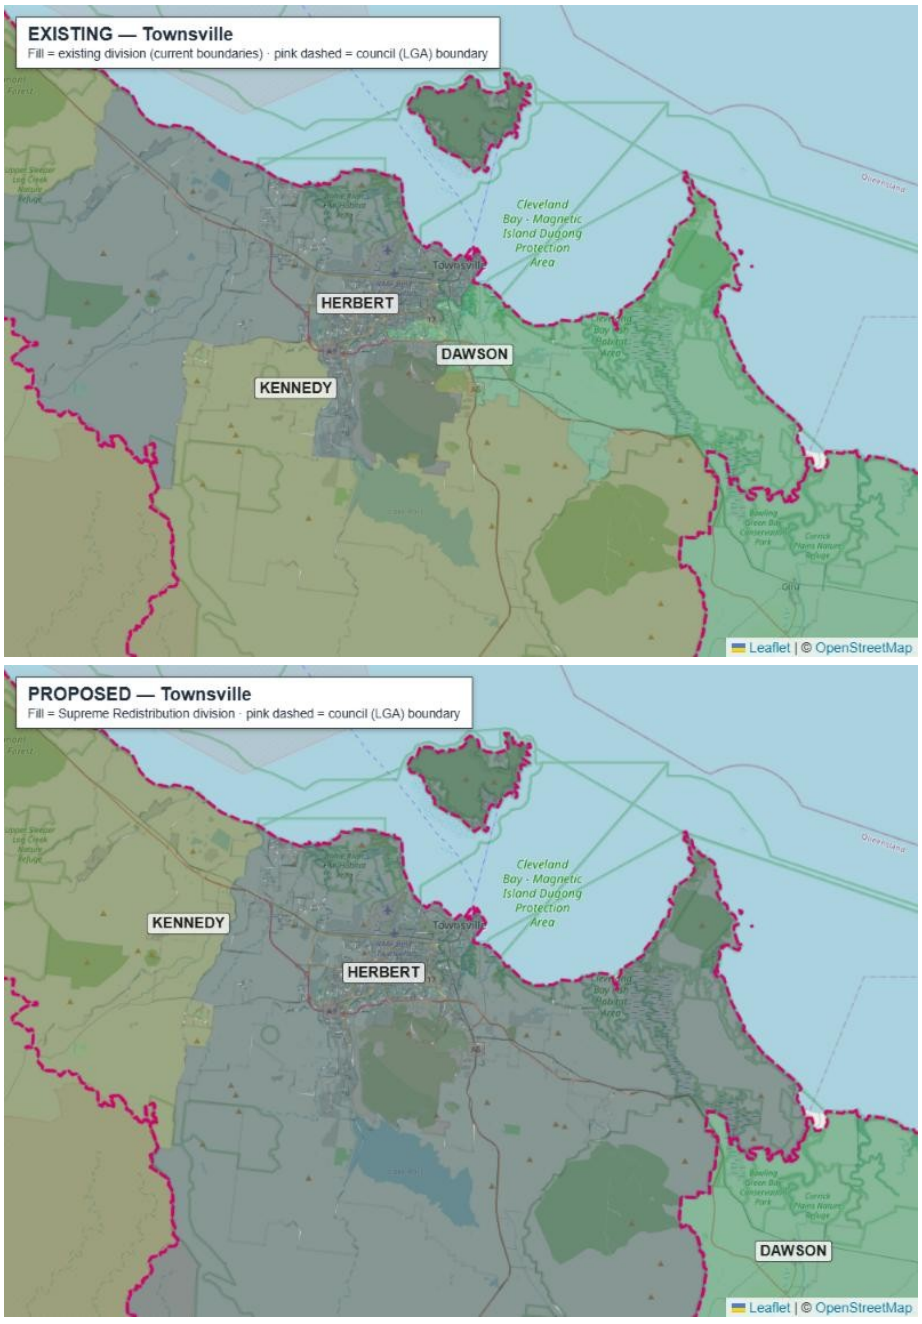

Figure 8. Townsville. Proposed: southern Townsville returns from Dawson to Herbert.

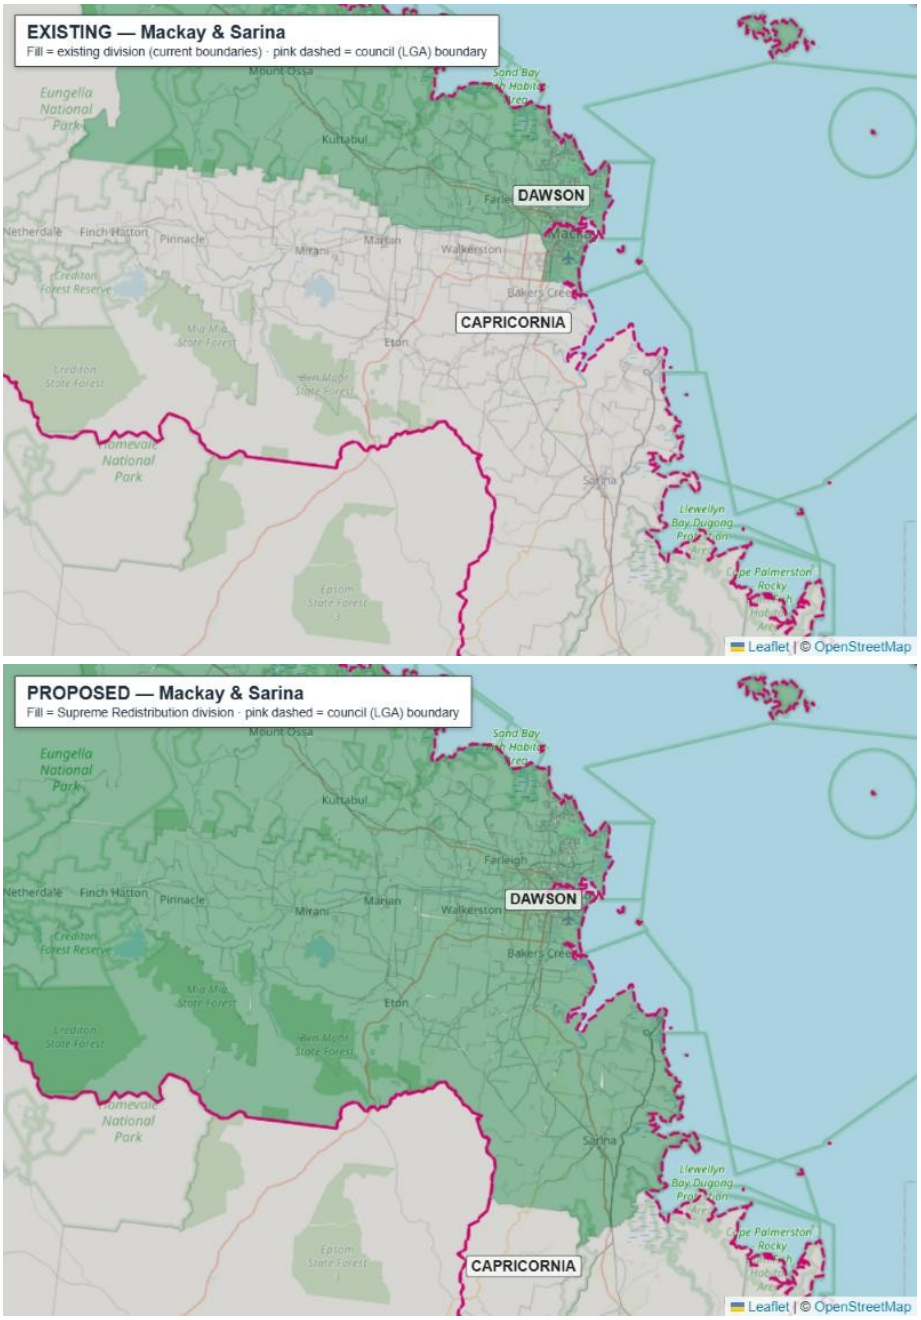

Figure 9. Mackay. Proposed: urban Mackay is reunited in Dawson.

8. Cairns, Cape York and the Torres Strait

Southern Cairns (Bentley Park, Edmonton, Gordonvale) and Yarrabah are currently in Kennedy, a division that runs to the Northern Territory border. In this map the whole Cairns council area is in Leichhardt, together with Port Douglas and Kuranda. Cape York (Weipa, Cooktown, Hope Vale, Aurukun, Lockhart River, the Northern Peninsula Area), the Torres Strait and Mossman–Daintree join Kennedy. Mr Waddell (S37: "Kennedy gains all of Cape York from Leichhardt") and Mr Baker (S61: "Leichhardt as a specifically Cairns-region division") propose the same structure. S23 objects to southern Cairns being in Kennedy.

Ms Perry (S59) wants Cape York kept in Leichhardt, pointing to Cairns airport and to the Torres Strait Islander population shared between Cairns and the Cape. Dr Mulcair (S47) also keeps it there, noting the resistance to past proposals to move it, and the LNP (S62) proposes no change to Leichhardt. These connections are real, but Cairns is equally the airport and service centre for Kennedy's Tablelands, Cassowary Coast and Gulf communities, and nobody suggests putting them in a Cairns seat for that reason. In this map the Torres Strait and the Northern Peninsula Area stay together in one division. The question is representation. Cairns is a city of over 120,000 electors and needs one

member focused on it. The remote Indigenous communities of the Cape, the Torres Strait and the Gulf share land, native title, remote-service, infrastructure and cost-of-living interests, and are better represented together in one remote division than as the tail of an urban seat. Kennedy is already that remote division for the Gulf and the North West; adding the Cape completes it.

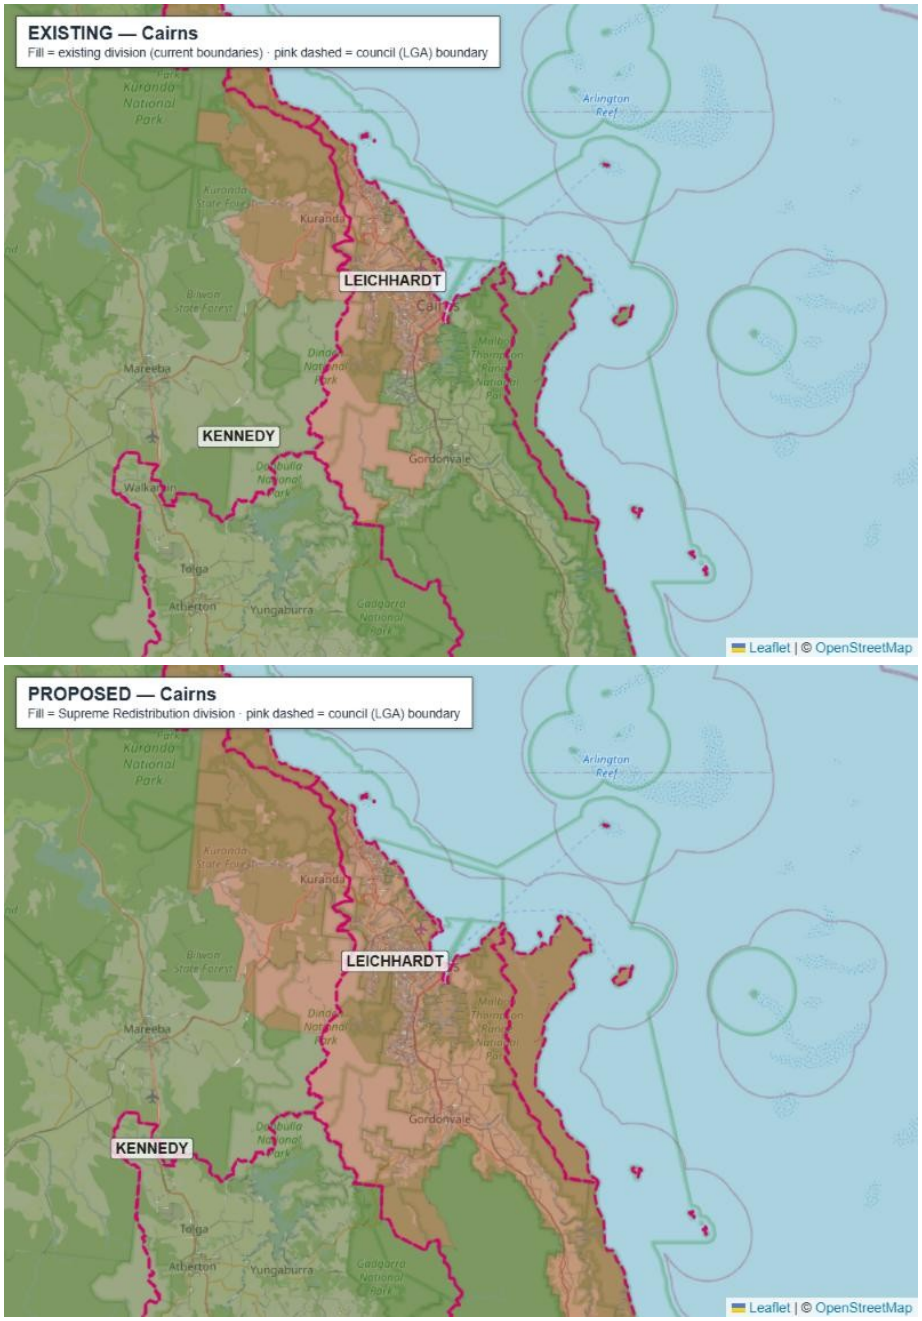

Figure 10. Cairns. Proposed: all of the Cairns council area, including the southern suburbs and Gordonvale, is in Leichhardt.

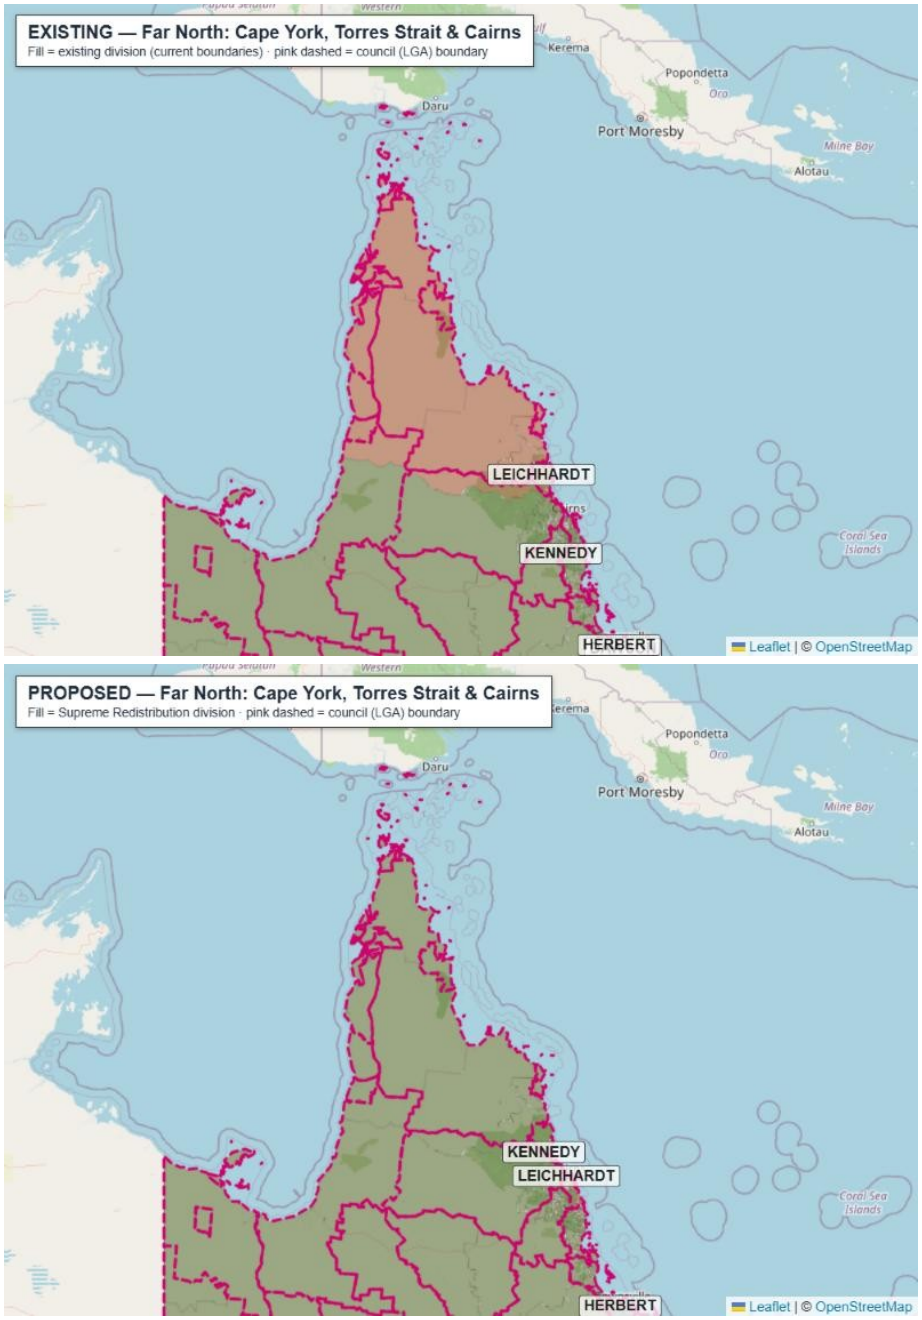

Figure 11. Far North Queensland. Proposed: Cape York and the Torres Strait join Kennedy.

9. Following the roads

Some edges in this map look unusual on a statistical map. They are deliberate. Wherever possible I have drawn each division so that its own communities are connected by its own roads, so a resident (or the member) does not have to drive through another division to get from one part of their division to another. Some examples:

- **Kennedy:** Cape York does not need Cairns to reach the rest of Kennedy. The Mulligan Highway runs from Mareeba on the Tablelands through Mount Molloy to Lakeland and Cooktown, and the Peninsula Developmental Road continues from Lakeland to Weipa and the tip. That whole inland spine lies within the proposed Kennedy; Cairns sits off to the side on the coast.
- **Port Douglas:** Leichhardt follows the Captain Cook Highway north from Cairns to Craiglie and Port Douglas, keeping the coastal strip with Cairns. Mossman and the Daintree, further north, go with the Cape communities in Kennedy.
- **Babinda:** at the southern end of Cairns council, Leichhardt follows the Bruce Highway corridor down to Babinda. The surrounding rural SA1s in Cassowary Coast council and the Wooroonooran ranges stay in Kennedy.

- **Wright:** two SA1s on the Logan boundary (Wolffdene–Bahrs Scrub and Jimboomba–Glenlogan) stay in Wright because they keep Wright joined up by road between its Scenic Rim and Gold Coast hinterland parts.
- **Woodford:** one SA1 crosses into Moreton Bay so that Commissioners Flat Road and the Kilcoy–Beerwah Road keep Wide Bay's south-western edge connected by road (see section 5).

I tested this with real driving routes rather than relying on the look of the map. For each boundary piece I took the fastest road route (OSRM routing on OpenStreetMap roads) from the piece to the main centre of its proposed division, and to the main centre of the division it would otherwise join. I then measured how many kilometres of each route run through a different division. Short gaps at river crossings and coastlines are ignored. Some results:

Boundary piece	Electors	Proposed	Through other divisions	Alternative	Through other divisions
Wolffdene–Bahrs Scrub (1 SA1)	223	Wright	0 km	Forde	5.8 km via Wright
Jimboomba–Glenlogan (1 SA1)	466	Wright	0 km	Forde	4.6 km via Wright
Port Douglas	3,812	Leichhardt	0 km	Kennedy	13.0 km via Leichhardt
Kuranda	3,758	Leichhardt	0 km	Kennedy	12.7 km via Leichhardt
Babinda rural (3 SA1s, Cassowary Coast council)	663	Kennedy	0 km	Leichhardt	13.4 km via Kennedy
Northern Beaches, Townsville (whole SA2; 4,208 newly moved)	5,505	Kennedy	0 km	Herbert	11.3 km via Kennedy
Sarina edge (4 SA1s)	834	Capricornia	0 km	Dawson	13.9 km via Capricornia
Bundaberg Surrounds–South (13 SA1s)	3,740	Hinkler	0 km	Flynn	20.3 km via Hinkler
Gin Gin (1 SA1)	235	Flynn	0 km	Hinkler	13.1 km via Flynn
Gympie Surrounds (8 SA1s)	2,747	Flynn	0 km	Wide Bay	25.5 km via Flynn, Fairfax
Gayndah–Mundubbera (7 SA1s)	1,560	Maranoa	0 km	Flynn	62.5 km via Maranoa
Kingaroy Surrounds–North (2 SA1s)	309	Maranoa	0 km	Flynn	21.6 km via Maranoa
Kilcoy rural (3 SA1s)	667	Maranoa	0 km	Longman	13.3 km via Maranoa
Pittsworth (1 SA1)	238	Groom	0 km	Maranoa	15.9 km via Groom

In each case the proposed placement keeps the drive to the division's centre inside the division, and the alternative would send residents through a neighbouring division. There are many smaller cases like these across the map. Where a line looks irregular, it is usually following the road that the community uses.

Figure 12. Proposed Kennedy holds the inland road spine from the Tablelands to Cape York; Leichhardt is the Cairns coastal strip. Black lines are the existing division boundaries.

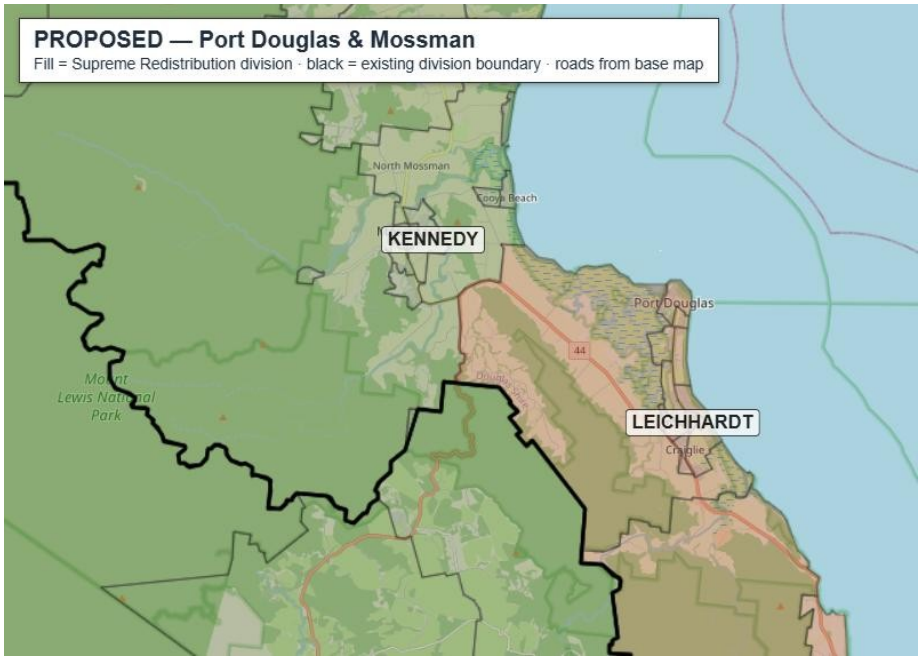

Figure 13. Port Douglas and Mossman. Leichhardt follows the Captain Cook Highway (route 44) to Port Douglas.

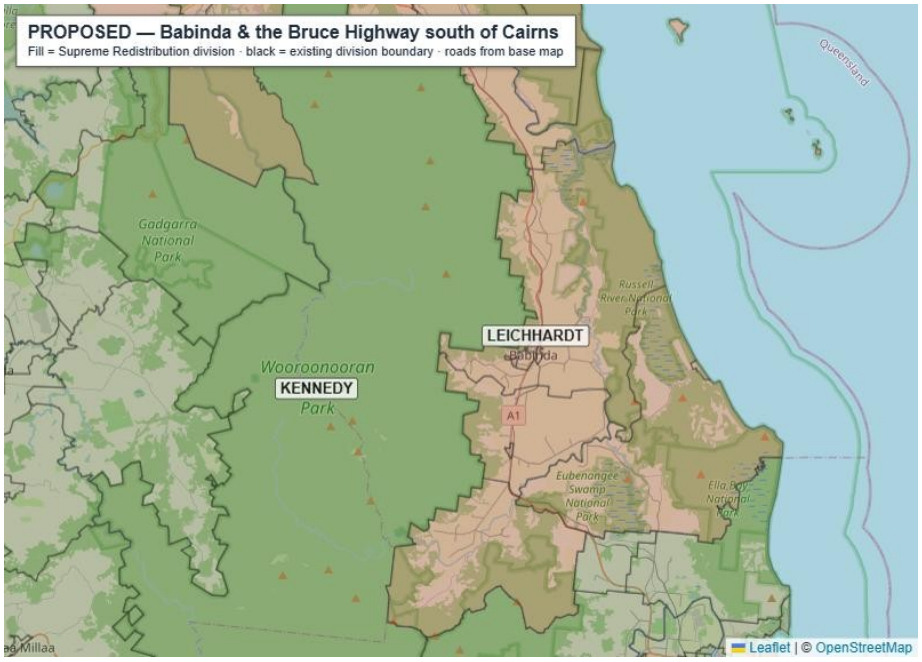

Figure 14. Babinda. Leichhardt follows the Bruce Highway (A1) corridor south through Babinda.

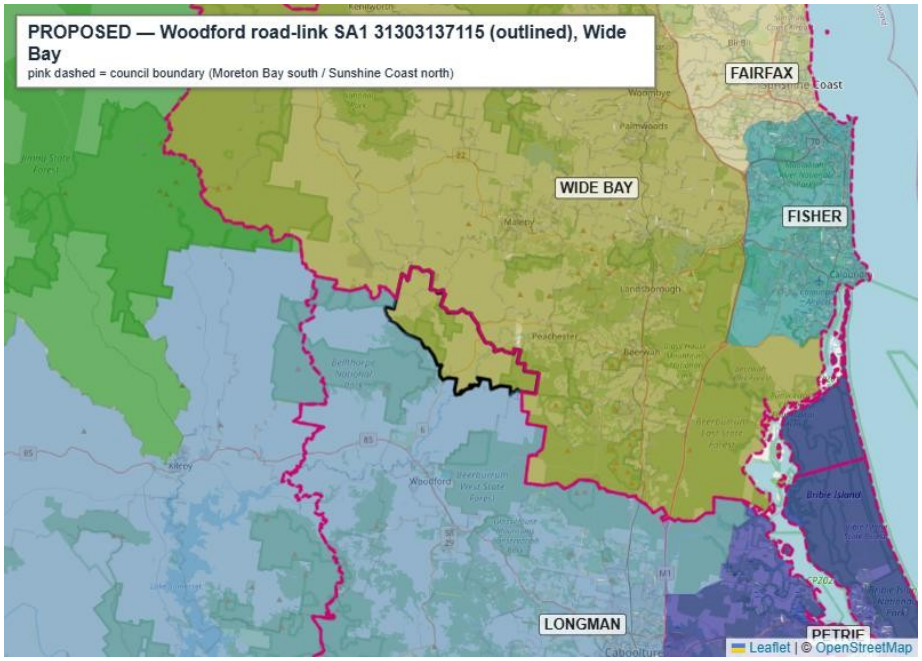

Figure 15. Woodford. The outlined SA1 carries the road link that keeps Wide Bay connected.

10. Other changes in this map

- **Councils reunited:** Rockhampton, Fraser Coast, Cairns, Mackay, Burdekin, Whitsunday, Isaac and Carpentaria go from split to whole (Mackay bar 834 electors). Townsville goes from three divisions to two, Logan from three to two (bar 689 electors), the Gold Coast from five to four, and Brisbane from eleven to seven.
- **Central West:** Winton moves to Kennedy, joining the North West; Longreach, Barcaldine and Blackall–Tambo move to Capricornia.
- **Burnett:** Kingaroy and Nanango stay with Maranoa; the Kingaroy hinterland and Cherbourg join Flynn, which keeps most of Gayndah–Mundubbera; most of Monto–Eidsvold, part of Gayndah–Mundubbera and all of Banana go to Maranoa.
- **Douglas:** Mossman and the Daintree go to Kennedy with the Cape communities they adjoin (Wujal Wujal, Cooktown); Port Douglas stays with Cairns.
- **Gympie:** Kilkivan and Gympie's western districts go to Flynn with the Burnett towns they adjoin.

Douglas and Gympie are the two councils this map newly divides. In both, the outer communities go with the neighbours they adjoin and share roads with.

11. Enrolment by division

Current enrolment quota 127,259 (±10%: 114,533 to 139,984). Projected quota 132,526 (±3.5%: 127,888 to 137,165). Figures are the sum of the AEC SA1 enrolment data for each division.

Division	Core area	Current	± quota	Projected	± quota
Blair	City of Ipswich	114,651	-9.91%	121,540	-8.29%
Bonner	Brisbane bayside east	119,661	-5.97%	122,515	-7.55%
Bowman	Redland City	126,194	-0.84%	129,421	**-2.34%**
Brisbane	Inner-north Brisbane	131,163	+3.07%	136,809	**+3.23%**
Capricornia	Rockhampton, Livingstone, Central Highlands, Isaac, Central West	130,887	+2.85%	135,536	**+2.27%**
Dawson	Mackay, Whitsunday, Burdekin	128,200	+0.74%	132,777	**+0.19%**
Dickson	Moreton Bay: Hills District, Strathpine, Kallangur	117,134	-7.96%	121,272	-8.49%
Fadden	Northern Gold Coast (coastal)	115,196	-9.48%	121,952	-7.98%
Fairfax	Sunshine Coast north coast + coastal Noosa	122,698	-3.58%	126,946	-4.21%
Fisher	Sunshine Coast south coast	120,403	-5.39%	128,666	**-2.91%**
Flynn	Fraser Coast + Burnett	119,563	-6.05%	123,850	-6.55%
Forde	Logan west & south	128,202	+0.74%	140,736	+6.19%
Griffith	Inner-south Brisbane	127,425	+0.13%	133,214	**+0.52%**

Groom	Toowoomba city + Lockyer Valley	138,543	+8.87%	144,655	+9.15%
Herbert	Townsville	138,860	+9.12%	144,230	+8.83%
Hinkler	Bundaberg + Gladstone	124,674	-2.03%	129,478	**-2.30%**
Kennedy	Cape York, Torres Strait, Gulf, North West, Tablelands	124,110	-2.47%	127,323	-3.93%
Leichhardt	Cairns, Port Douglas, Kuranda	130,487	+2.54%	136,381	**+2.91%**
Lilley	North Brisbane	137,132	+7.76%	140,694	+6.16%
Longman	Caboolture, Narangba, Samford–Dayboro, Somerset	136,440	+7.21%	143,440	+8.24%
Maranoa	Darling Downs, South West, South Burnett, Banana	139,489	+9.61%	142,734	+7.70%
McPherson	Southern Gold Coast	123,248	-3.15%	127,883	-3.50%
Moncrieff	Central Gold Coast	119,163	-6.36%	124,408	-6.13%
Moreton	South Brisbane	132,137	+3.83%	136,826	**+3.24%**
Oxley	South-west Brisbane + Springfield, Redbank, Goodna	131,490	+3.33%	137,430	+3.70%
Petrie	Redcliffe, North Lakes, Bribie (Moreton Bay coast)	133,155	+4.63%	139,400	+5.19%
Rankin	Logan north & east	120,615	-5.22%	124,382	-6.15%
Ryan	Western Brisbane	139,231	+9.41%	142,670	+7.65%
Wide Bay	Gympie + Noosa & Sunshine Coast hinterland	120,095	-5.63%	125,304	-5.45%
Wright	Scenic Rim + Gold Coast hinterland	127,513	+0.20%	133,312	**+0.59%**

Bold projected figures are within ±3.5%. McPherson (-3.504%) is just outside.

Conclusion

Every suggestion in round one identified part of this picture. The Supreme Redistribution puts it together: Logan in two Logan divisions, council lines respected across Brisbane, Moreton Bay and Ipswich, every major regional city essentially in one division, and Cairns with its own member. I ask the Committee to adopt this framework. Where it needs to refine enrolments, it can do so at the edges without reintroducing the splits this map removes.

Appendix: what moves

Every SA1 not listed here stays in its existing division. 3,301 SA1 records move, grouped below by the division they join and by ABS statistical area (SA2). "All" means every SA1 in that SA2 moves; otherwise the moving SA1s are listed by the SA2 code followed by the last two digits of each SA1 (A/B = AEC split-SA1 part). For example "302011022: 01, 02" means SA1s 30201102201 and 30201102202. Electors are current enrolment (994,918 current electors move in total).

Bonner gains (19 SA1s, 4,973 electors)

Area (SA2)	From	SA1s	Electors	Which SA1s
Holland Park	Griffith	12/21	3,502	303021056: 01, 02, 03, 04, 07, 08, 09, 17, 18, 19, 20, 21
