SA FEDERAL ELECTORATE REDISTRIBUTION

BY LUKE DIXON

RATIONALE

For the purpose of the state of South Australia I have submitted the following proposal, with the sole purpose of creating electorates that will be as equitable as possible whilst also meeting other AEC criteria.

ELECTORATAL CHANGES: AIM

To achieve this goal a table was formulated on the basis of how many voters each electorate is either over allotted or under allotted based on the **2030** data provided on the AEC site. I have additionally stated the amount of voters I aim to move, to the nearest thousand, between electorates.

FINAL NOTES

-The electorate of Barker will end up slightly over allotted by current and predicted figures to ensure the town of Strathalbyn remains in the one electorate.

-While there was no requirement for the electorates of Boothby, Grey and Sturt to have changes to its electoral boundaries, for the purposes of equity between each seat it is proposed that minor adjustments are made within these electorates.
